NOVELTY!

This mat is great for those who want to optimize the use of table space. You can charge almost any gadget that supports Qi wireless charging standard - just place your smartphone, earbuds or a mouse on the right side of the mat. The wear-resistant surface is covered with a special fabric made of polyurethane fibers and special fiberglass, which provides high-precision control over the cursor movement and convenient maneuvering. It is great for all types of mouse sensors, including made for gaming. The rug will not slip on the table due to the anti-slip rubber base. The mousepad is totally safe, as it has multiple levels of protection from overvoltage, overheating, short circuit and overload.
