JETTER 357

Gaming Mouse

JETTER 357 GAMING MOUSE

Squeeze the most out of your gaming experience with Jetter 357 – our lightweight and ergonomic gaming mouse. Thirty million clicks durability and our gaming-grade Pixart sensor with up to 8000 DPI will make your sessions seamless.

With 6 programmable buttons, you can create custom combinations while the Key Balance system makes every click count. Jetter 357 enhanced RGB system of backlight and 6 modes of backlight effects let you customize the way your mouse looks to match your gaming rig.

Discover your performance with Lorgar Platform: view mouse speed, distance range, total clicks, and more. On top of that, you'll find two gifts in the bundle: a branded keychain and two fidgeters.

Jetter 357 is everything a gaming mouse must be.

Key balance system

Ergonomic design

Gaming-grade optical sensor

True RGB backlight

100% PTFE mouse feet

ERGONOMIC DESIGN, LIGHTWEIGHT

Ergonomic and lightweight – only 75 grams, this gaming mouse feels comfortable regardless of the hand size and grip.

6 PROGRAMMABLE BUTTONS

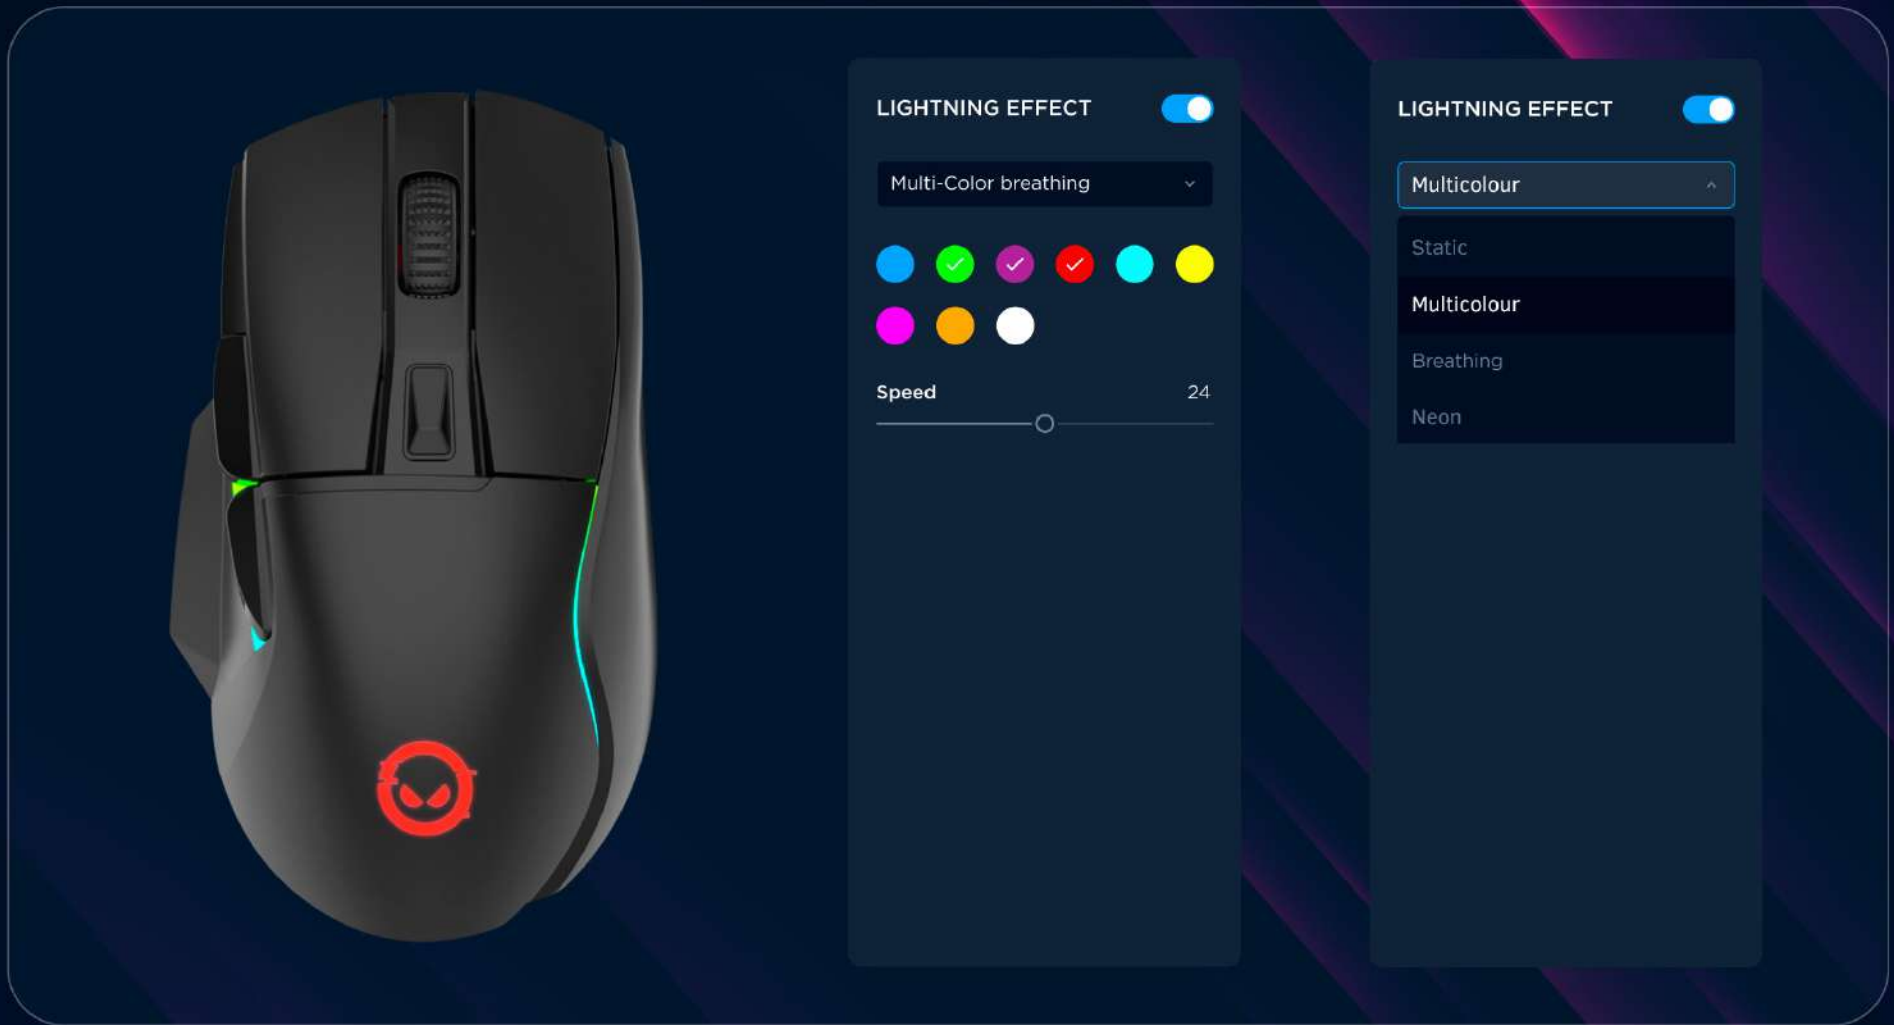

With 6 durable (30M clicks) and programmable buttons, you can set your mouse up for different game scenarios, no matter the genre. The KBS feature provides a single level of click resistance wherever you click both buttons.

PTFE FEET

Specially developed feet material provides smooth and precise gliding even with long-term use.

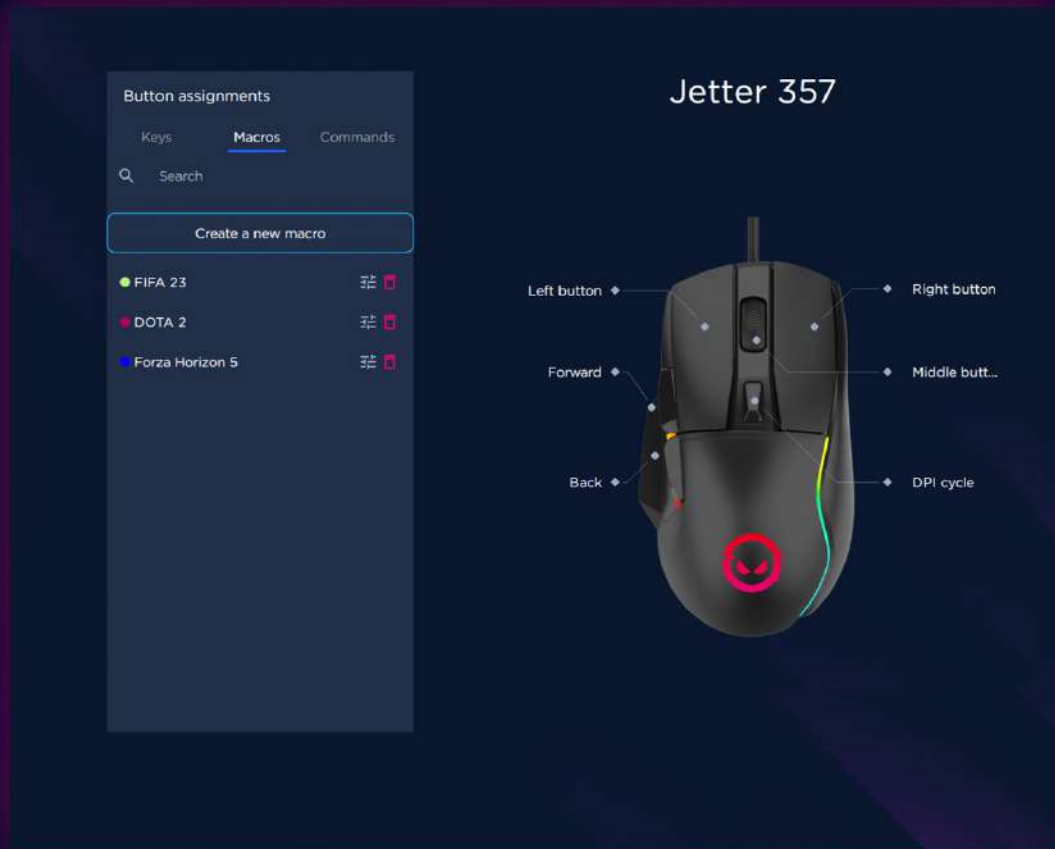

ENHANCED RGB SYSTEM OF BACKLIGHT

Control the backlight using one of the 4 modes or choose a color to match your gaming setup.

GAMING-GRADE PIXART SENSOR

High-performing optical Pixart sensor provides reliable performance even at high DPI parameters. Compatible with all types of gaming surfaces.

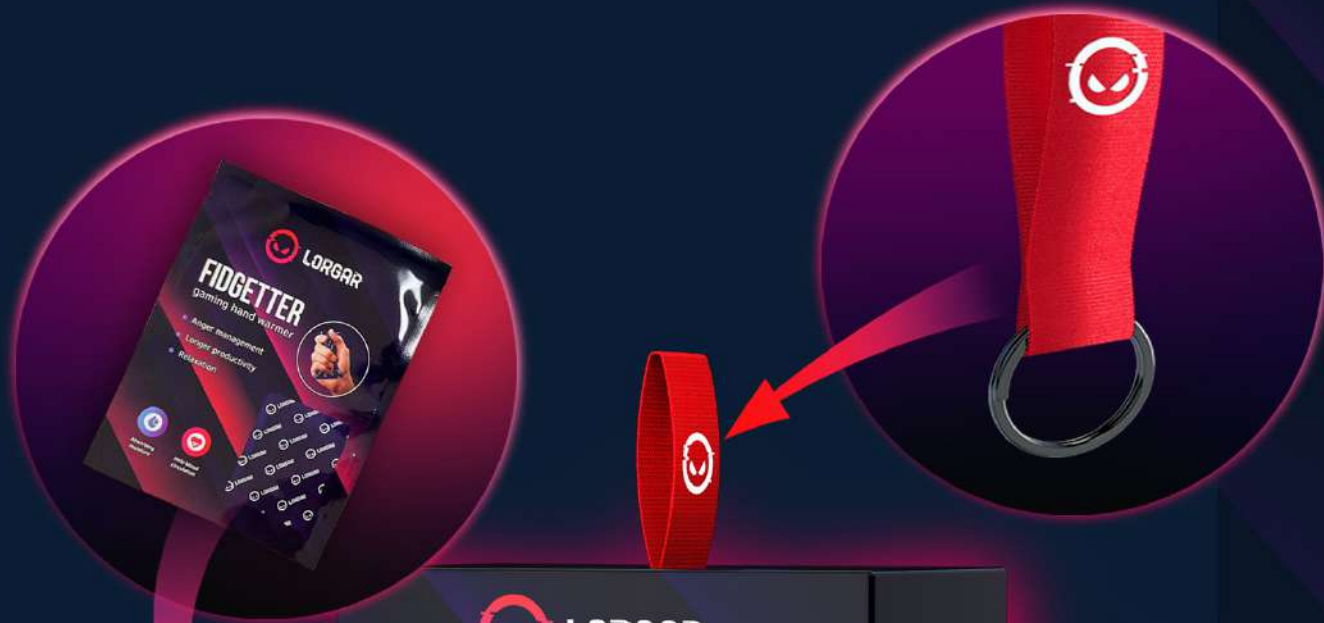

LOGGAR PLATFORM

Our original Loggar Platform lets you access advanced settings and customization, from mouse backlight to macros logging.

DISCOVER YOUR PERFORMANCE

With Lorgar Platform, you can explore personal activity stats. The number of clicks, game speed, mouse range, and even more is available in the original Lorgar Platform module.

GIFTS

You'll find a unique gift bundle in each mouse set – two fidgeters and a branded keychain attached to the box. Don't forget to take it out before throwing the box away.

STRICTER 579

Gaming Mouse

STRICTER 579 GAMING MOUSE

Looking for a high-precision gaming tool?
Lorgar Stricter 579 could be your mouse of choice.

Ergonomic design, combined with its classic size and weight, minimises your time getting to grips with Stricter 579. The mouse feet are made of 100% PTFE and provide the smoothest glide. The ease of motion is further optimised by the flexible and durable silicone cable.

With its advanced Pixart PMW3336 sensor of 12000 DPI, this sleek and sturdy mouse delivers precision and accuracy like never before. The OLED screen, nine durable programmable buttons with an impressive lifecycle of 50 million clicks for the left and right buttons, two switches with force adjustment, and synchronisable RGB backlight bring personalisation to unmatched levels. All thanks to Lorgar Platform — our proprietary platform to enrich your gaming experience.

Stricter 579 combines comfort, functionality, and performance in one powerful package.

● LRG-GMS579 | black | 5291485010621

FULLY CUSTOMISABLE VIA LORGAR PLATFORM

Our original Lorgar Platform lets you use your new Lorgar device to the max: track performance, make custom game profiles, manage RGB backlight, sync with other Lorgar devices, plus other features.

DISCOVER YOUR PERFORMANCE

With the Lorgar Platform, you can utilise the statistical module to monitor your gaming sessions' activity and compare behaviour across various applications. Discover your average cursor speed, mouse distance traveled, remaining clicks to reach the promised 50 million, and many more.

RGB BACKLIGHT

The RGB backlight is adjustable with Lorgar Platform and can synchronise with other Lorgar products, such as our RGB mouse pad.

9 PROGRAMMABLE BUTTONS

Left and right mouse buttons with an impressive lifecycle of 50 million clicks, scroll button with backlight, resolution increase and resolution decrease buttons, Fn button, fire button, forward button, back button – all these are ready to be binded according to your preferences.

More buttons, more control, more possibilities.

TWO SWITCHES WITH FORCE ADJUSTMENT

Select the required click force, depending on your role in the game: heavier force for clarity of click when sniping or lighter force for swiftness of reaction in close quarters.

BUILT-IN OLED DISPLAY

This handy little screen can show the current settings of your mouse, a Lorgar logo, or basically anything you'd want. Personalise your Stricter 579 and make it stand out.

A close-up, top-down view of a gaming mouse's sensor area. The mouse is dark grey or black with a textured surface. A central sensor is highlighted with a bright red glow and lens flare effects. The background features diagonal purple and blue light streaks.

GAMING-GRADE OPTICAL SENSOR

A 12000 DPI Pixart PMW3336 sensor has a response time of 1 millisecond and provides reliable performance even with 30g accelerations. Compatible with all types of gaming surfaces.

GIFTS INSIDE

There's a gift bundle in each package: additional mouse feet, an eco-friendly cup coaster, two hand warmers, and a keychain. Remember to get all this out before throwing the box away!

GAMING ACCESSORIES

KEYBOARDS

LORGAR

AZAR 514

Gaming keyboard

AZAR 514 GAMING KEYBOARD

Have you ever wondered what type of keyboard would fit you best?

The Azar 514 is here to eliminate the agony of choice. Thanks to its removable magnetic top cover, this unique mechanical keyboard can shapeshift from classic to skeleton body and is built on a durable aluminium base. The Lorgar linear Dream Switches are smooth and silent, featuring a 2mm actuation point and 40 grams of perfectly balanced actuation force. Combined with the ability to withstand 50 million cycles, these 104 keys will be yours forever. All that goodness is illuminated with an RGB backlight, fully customisable with our Lorgar Platform.

The Azar 514 also features quality-of-life design choices: adjustable rubberised feet, removable Type C spring silicone cable that can stretch up to 3.4m, and a cable management system to keep your workspace organised. This keyboard comes in a monochrome or black colour scheme. With any colour you choose, you'll find some pleasant extras in the package. Pick one today because the Lorgar Azar 514 is finger-clicking good!

SPRING CABLE

Detachable cable USB
Type C (to keyboard) USB
Type A (to PC) Adjustable
length: 1.8 - 3.4 m

2-IN-1 BODY

The Azar 514 has its unique feature: the magnetic top cover can be removed, transforming it from a classic keyboard to a skeleton body design. All that is built on a sturdy aluminium base, ensuring long-lasting durability and stability.

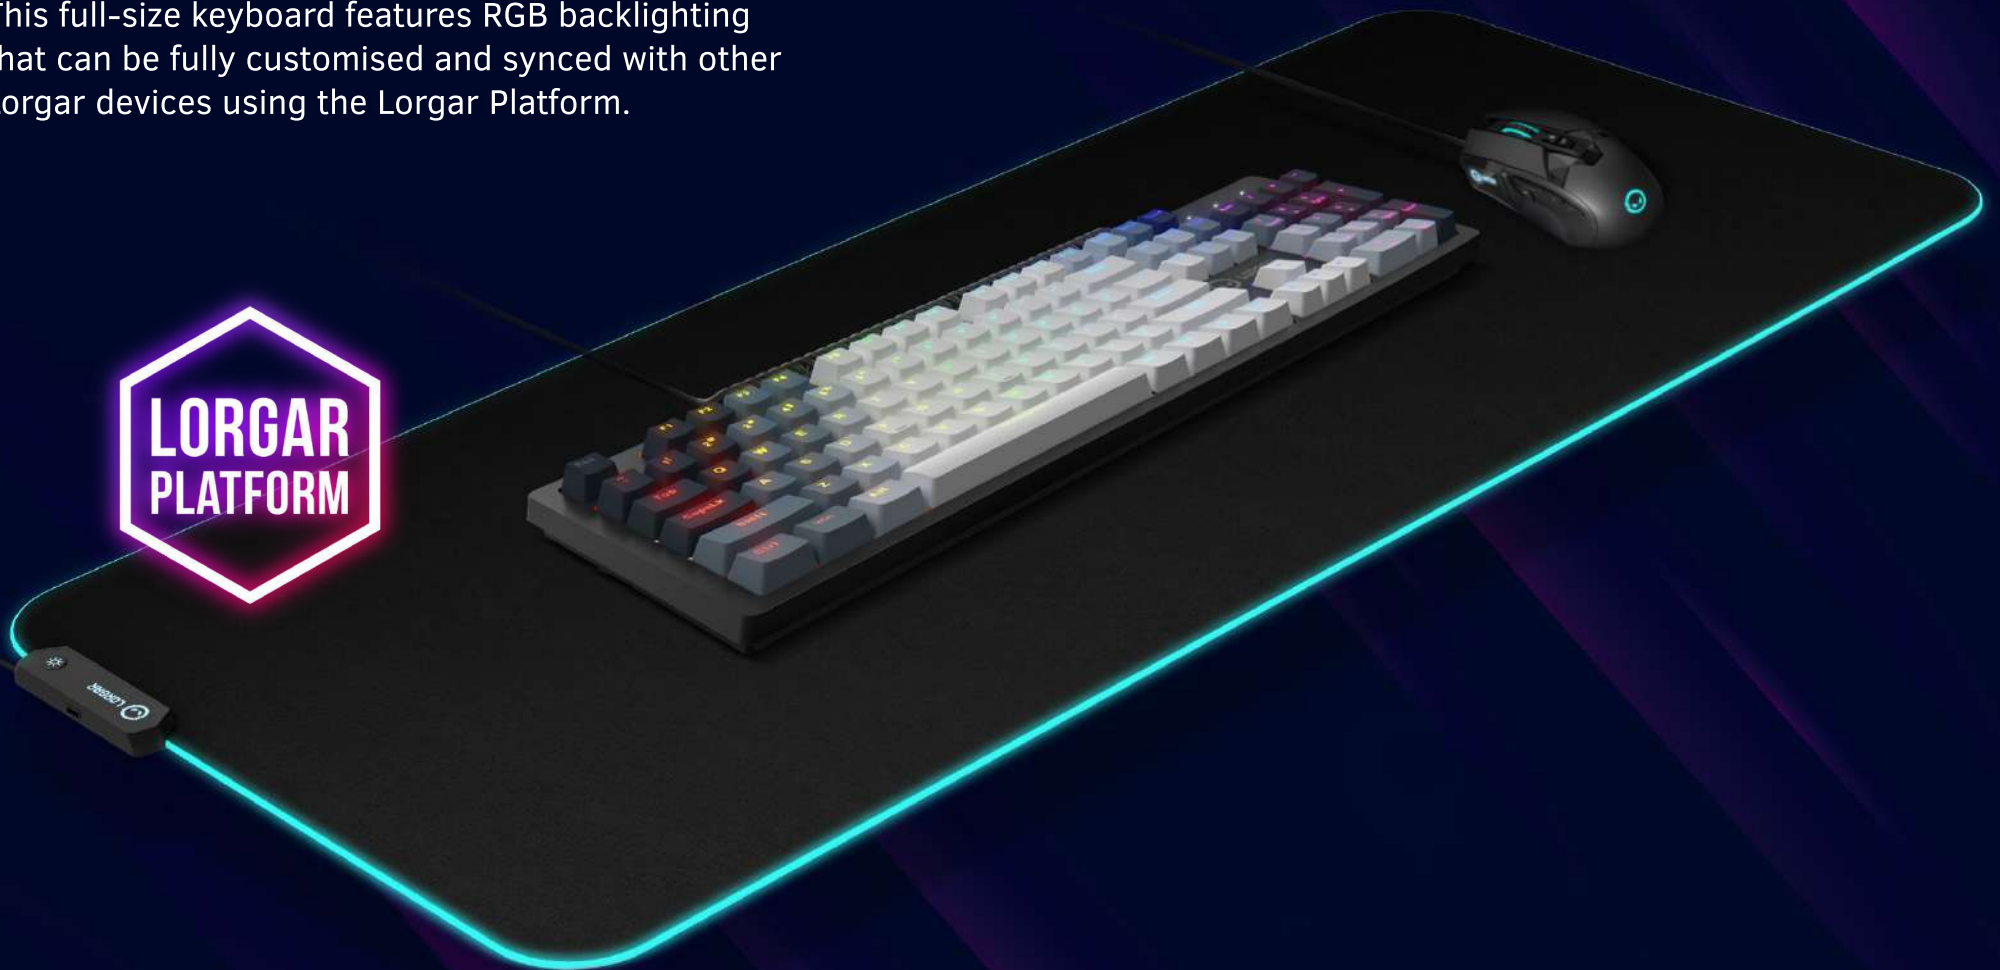

SMOOTH & SILENT LINEAR DREAM SWITCHES

These Dream Switches can withstand 50 million cycles, making them highly dependable. With the balanced actuation force of 40 grams, no accidental input is expected, and the actuation point of 2mm within 4mm of travel distance gives you a reaction advantage in-game.

CUSTOMISABLE RGB BACKLIGHT

This full-size keyboard features RGB backlighting that can be fully customised and synced with other Lorgar devices using the Lorgar Platform.

LORGAR PLATFORM

Besides the ability to customise and synchronise your devices' backlight, our software allows you to create gaming profiles, record macros, and remap keys. You can also monitor your gaming performance and statistics for every Lorgar device you own. All of that in one app: Lorgar Platform.

LITTLE IMPORTANT THINGS

The Azar 514 has been designed with user convenience in mind, featuring three-position rubberised feet, removable and flexible spring USB (C) – USB (A) cable of up to 3.4m, and a cable management system to keep your workspace organised.

COLOUR OPTIONS

The Azar 514 comes in two colour options: monochrome and black. The monochrome keyboard has black & white gradient keys, black top cover and white base. The black keyboard goes with black & grey keys, black top cover and gun-metal base.

HEADSETS

NOAH 501

Wireless gaming headset

NOAH 501 WIRELESS GAMING HEADSET

Try playing by ear with our brand new Lorgar Noah wireless gaming headset series.

The Lorgar Noah 501 headset is equipped with high-quality 40mm speakers, providing you with a crisp and clear 3D sound. The retractable microphone is easily adjusted to follow the natural shapes of your face. Whenever you are done talking, just retract the mic into the headset. It gets better: your ears enjoy soft and comfortable cushions. Even the longest gaming sessions will bring you only excitement, not soreness. The adjustable size will keep your head comfy and happy – Lorgar headsets think that all skull shapes are beautiful.

Besides, you're playing in style with the red breathing LED backlight.

Noah 501 is true gaming wireless: we kept the latency low to ensure a smooth experience. Pick any platform, whether a mobile phone, PC, or dedicated gaming device – Lorgar Noah 501 is fully compatible with everything. Even more: a high-capacity battery of 1000mA allows you to have fun for up to 58 hours via BT 5.3 connection. If you ever play so hard there's no charge left, just use the 3.5mm jack – the cable is included in the package.

CLEAR SOUND

Crystal-clear 3D surround sound is brought to you by two 40mm speakers with frequency span from 20Hz to 20kHz

RETRACTABLE MICROPHONE

An omnidirectional and easily adjustable microphone follows the shape of your face for optimal performance. AI noise cancelling ensures the clarity of your voice. Sleek design allows the mic to be hidden into the headset while not in use, or you can opt for pushing the dedicated mute button.

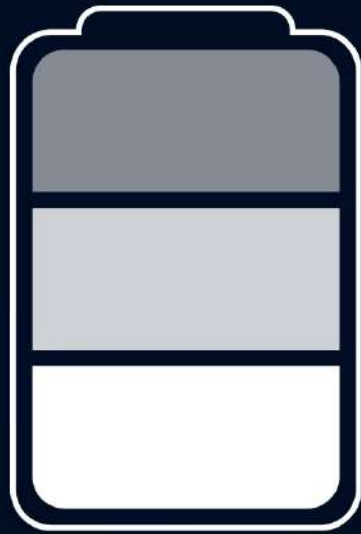

IT'S COMFORTABLE

The PU leather cushions provide top-notch comfort for your skin, and a small weight of just 260 grams keeps your neck happy even after the longest gaming sessions.

ADJUSTABLE SIZE

All shapes and sizes are beautiful, so Lorgar Noah headsets are designed to be adjustable and follow your head's natural silhouette.

1000 mAh

up to 58h playing time

HIGH CAPACITY BATTERY

A high-capacity 1000mAh built-in battery ensures seamless gaming up to 58 hours when connected via BT 5.3.

FOLDABLE

Fold your Noah 501 while not in use to ensure its safe and convenient packing in your backpack.

LIGHTWEIGHT

Weighing in at only 260 grams, Noah 501 is lightweight and comfortable enough to play all day.

TRUE GAMING WIRELESS

Play your favourite games even in wireless mode thanks to the low latency and instant sound delivery.

COMPATIBILITY

Lorgar Noah series is compatible with all gaming devices, whether it is a PC, mobile or console.

NOAH 701

Wireless gaming headset

NOAH 701

WIRELESS GAMING HEADSET

Try playing by ear with our brand new Lorgar Noah wireless gaming headset series.

The Lorgar Noah 701 headset comes with high-quality 40mm speakers that deliver accurate sound. You can adjust the retractable microphone to fit your face's natural contours. Just hide the mic back into the headset when you're through speaking. It just gets better from there as your ears relax in comfortable cushions. Now, even the longest gaming sessions won't make you sore; they'll excite you. The adjustable size will fit any head shape – we took good care of it. And the violet breathing LED backlight looks unique.

To give you a seamless experience, we kept the latency as low as possible in Noah 701. Pick any platform, whether a smartphone, PC, or a dedicated gaming device – this headset will work flawlessly on it. Additionally, a high-capacity battery of 1000mA enables up to 40 hours of enjoyment when connected via a 2.4GHz USB dongle or even longer with BT 5.1. Use the 3.5mm jack instead if you ever play so hard that there is no charge left; the cable is provided in the packaging.

KAYA 360

USB gaming headset

KAYA 360 USB GAMING HEADSET

Introducing the Lorgar Kaya 360 USB gaming headset - the ultimate accessory for gamers who value both style and performance. With its sleek design, this headset will turn heads while you dominate the competition. The gunmetal gray colour of the Kaya 360 is just the beginning of its impressive features. Made of durable plastic with a metal-reinforced headband, this headset is built to last. The earcups rotate for comfort and easy storage, while the fabric ear pads provide a comfortable fit during long gaming sessions.

Immerse yourself in your favourite games like never before with crystal-clear sound that puts you right in the middle of the action. Keep in mind there are 40mm speakers with a frequency range of 20–20,000Hz – the audio experience is a symphony of software and hardware with this headset.

The noise-canceling microphone allows you to communicate with your teammates – and you always know if you're live thanks to the built-in LED light. Whenever you don't need to talk, retract it back into the earcup for a clean look. Plus, there's a designated mute button and a volume wheel, so you can control your audio without missing a beat. By the way, Kaya 360 is plug-and-play: connect it via USB-A, and it's ready to roll. Best of all, this Lorgar headset is focused on functionality, and you don't have to pay for bells and whistles.

Upgrade your gaming experience with the Lorgar Kaya 360 today!

BUILD & DESIGN

Kaya 360 is sure to impress. The headset features a gunmetal colour scheme with a glossy Lorgar logo on the side. Kaya is lightweight, weighing only 312 grams, making it easy to wear for extended periods without any discomfort. The adjustable headband ensures a secure fit for any head size.

EARCUPS AND PADS

The rotating earcups offer maximum convenience during long gaming sessions. The fabric ear pads will not irritate your ears even after hours of use. The earcups can also be rotated to store the headset easily.

CLEAR SOUND

The Kaya 360 delivers crystal-clear audio for an immersive gaming experience.

The sound quality is exceptional, allowing gamers to hear every detail in their games, from footsteps to explosions. Be right in the middle of the action!

RETRACTABLE MICROPHONE

A retractable noise-canceling microphone offers clear communication with your teammates, and a built-in LED light will serve as a clear indication you are being heard. The microphone can be easily retracted back into the headset body when not in use, giving the headset a sleek look.

AUDIO CONTROL

A volume control wheel and an instant mute button allow gamers to control their audio without skipping a beat.

WIDE RANGE OF COMPATIBILITY

The USB-A connection with Plug & Play makes it easy to connect Kaya 360 to the most popular gaming platforms. Enjoy hassle-free gaming right out of the box.

KAYA 460

USB gaming headset

KAYA 460 USB GAMING HEADSET

The Lorgar Kaya 460 is a gaming headset for high-performing players. This headset is sure to catch the eye of fellow gamers with its RGB backlight, and it is just the beginning of its impressive features.

Made with durable plastic and a metal-reinforced headband, this headset is built to endure. The earcups rotate for maximum comfort and convenience, while the fabric ear pads provide a snug fit.

Immerse yourself in the battle with rich sound from the 40mm speakers. The noise-cancelling microphone here allows for clear communication with teammates and features a built-in LED light to indicate when you're speaking. And for times when you don't need to talk, simply retract the microphone into the earcup for a minimalistic look. With a volume wheel and mute button, you can easily control your audio without missing a beat.

Best of all, the Kaya 460 is fully compatible with Lorgar Platform: control and synchronise the backlight, see usage stats, and create individual game profiles. By the way, this headset is plug-and-play: connect it via USB-A and start gaming right away.

Don't settle for less - upgrade your gaming experience with the Kaya 460 today!

True RGB
backlight

● LRG-GHS460 | black | 5291485015336

BUILD & DESIGN

The Kaya 460 really stands out: the RGB backlight shines, and you control it. The headband is reinforced by metal parts and is fully adjustable. The headset is also friendly to your neck, weighing only 329 grams.

EARCUPS AND PADS

The earcups are rotating, ensuring maximum comfort while in use and convenience for storage. The silky-smooth fabric of ear pads is nice to your skin.

RICH SOUND

Thanks to the high-quality 40mm speakers, the sound is so rich and beefy, that it feels almost real. Just give it a try, and you won't look back.

RETRACTABLE MICROPHONE

The noise-cancelling microphone is retractable and offers a perfect readout of your speech. It will take your communication and teamwork to the next level. When not in use, it can be hidden in the earcup.

AUDIO CONTROL

Control the volume with a real dial, and mute your headset with a real button. Some things feel better when they're tangible.

LORGAR PLATFORM SUPPORT

This headset supports Lorgar Platform, so you can see the usage stats, control the RGB backlight or sync it with other Lorgar devices, and create game profiles. Use that to elevate your game!

CONNECTION

Plug & Play functionality ensures you'll get a seamless experience. Connect the Kaya 460 to the most popular gaming platforms via USB-A and enjoy!

HIGH CAPACITY BATTERY

With a powerful 1000mAh battery, the Lorgar Noah 500 offers uninterrupted gaming for up to 58 hours when connected through Bluetooth within a 10-meter range.

FOLDABLE

The Noah 500 can be easily folded for safe and convenient carry in your backpack. Take it with you anywhere.

WIRELESS AND WIRED

Thanks to the low latency and instant sound delivery, you can play your favourite games even in wireless mode — this won't affect your gaming performance. If you need a backup plan, we added a cable for wired connection.

COMPATIBILITY

The Lorgar Noah 500 can be used with any gaming device, including PCs, mobiles, and consoles.

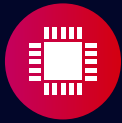

KEYCHAIN INSIDE

Don't forget to get your keychain from Lorgar before you dispose of the packaging!

TRIX 510

Wireless gamepad

TRIX 510 WIRELESS GAMEPAD

Lorgar TRIX 510 is a multi-platform wireless controller optimized for gaming on Windows, Android, iOS, Nintendo Switch and PS3.

Due to wireless connection with technology BT 5.0 you play up to 10 m from computer/monitor.

Rechargeable lithium-ion battery 600 mAh makes possible to play nonstop up to 8 hours on a single charge, and keep playing while the controller charges.

Placement of all control elements is common for most of gamepads, so you can change your old gamepad for a Trix 510 without any discomfort.

2 vibration motors respond on your actions, help to control playing and enjoy tactile contact.

Embedded motion sensor repeats your body movement for intuitive control while playing in Nintendo Switch.

Led lightings on the button makes comfort playing even in the dark.

Plug and play technology lets you easily connect gamepad to the gaming device without any additional software.

Enjoy the gaming with gamepad Trix 510!

CHAIRS

BASE 311

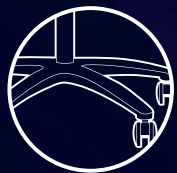

Gaming chair

BASE 311 GAMING CHAIR

You'll surely be able to sit back and relax in this Lorgar Base 311 gaming chair. The dense cold-moulded memory foam seat follows your body shape, and premium-feel eco-leather will withstand years of use. Plus, it's easy to clean and look after! With the neck and lumbar support pillows, you'll effortlessly maintain a healthy posture and reduce fatigue during long gaming sessions. Built around a 1.8mm metal frame, this armchair has an unmatched level of durability. The backrest has impressive recline angles between 90 and 155 degrees, and a five-star aluminium base will ensure your stability while leaning back.

The large 75mm PU casters provide quiet movement – glide around your workplace smoothly and don't worry about damaging the floor. A powerful Class 4 Gas Lift will help you set an optimal height to keep things comfortable. The armrests have four axes of movement: adjustable height, rotation, forward-aft, and inward-outward movement. Hands down, you can rely on them: these armrests are properly reinforced with metal parts. Put as much as 150 kilos on the chair – it's so sturdy it won't notice. For us, proper gaming chair design isn't just about comfort. It's about the care of our customers' well-being.

HIGH QUALITY ECO-LEATHER AND MEMORY FOAM FEELINGS

The upholstery is made of premium PU eco-leather with heavy-duty stitching. It is pleasant to touch, easy to clean, and hard to tear. The dense cold-moulded memory foam seat is designed to conform to your body shape.

It's difficult to find anything better than that for a gaming chair.

1.8MM

METAL FRAME

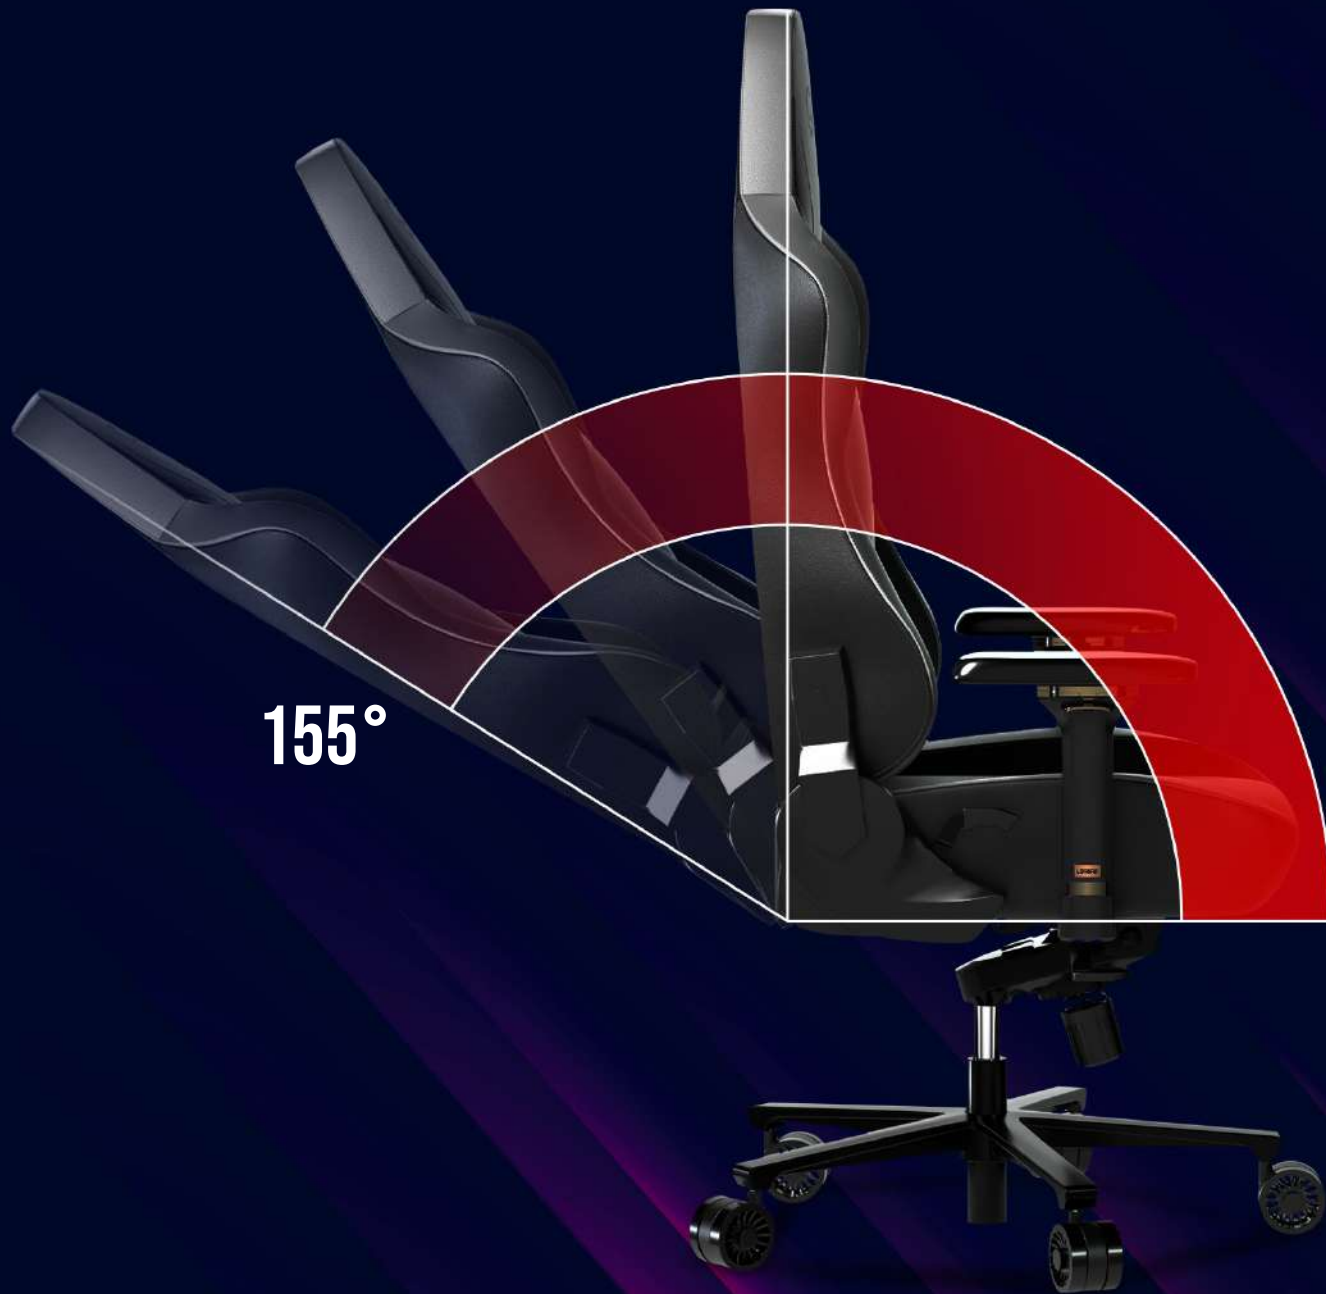

We used precision robotic welding to put together the frame. With a metal thickness of 1.8mm, it will serve you for years and years without any deformation. You're probably leaving this chair for your grandkids.

4D

REINFORCED 4D ARMRESTS

The armrests are adjustable to your liking with four degrees of freedom. We guarantee you'll be able to find a comfortable armrest position just for you. Rely on them – the metal base is sturdy enough to withstand the load.

90° – 155°

ADJUSTABLE BACKREST

Whether you are at your peak productivity, casually gaming, or watching some content & chilling – you are provided with a respectable range of backrest adjustments. Well, you can even sleep in this chair if you want to.

MULTIBLOCK MECHANISM

The rocking mechanism allows you to kick back and even lock any inclined angle for your seat between 0° and 13°.

13°

CLASS 4 GAS LIFT

An integral part of any gaming chair, the Class 4 Gas Lift ensures long- lasting operation with a constant load of 150 kilograms.

ALUMINIUM ALLOY FIVE-STAR BASE

A five-star alloy base is dependable. It is sturdy, stays stable, and provides even contact with the surface.

LARGE 75MM PU CASTERS

Sizeable casters made of soft-touch material will roll around easily while also being gentle on the floors.

HEADREST AND LUMBAR SUPPORT PILLOWS

These will support your back, neck, and shoulders during longer gaming sessions. Both pillows are removable. As you might get used to the comfort, there is a temptation to carry them along to your car or office.

COLOUR OPTIONS

The Lorgar Base 311 is offered in a variety of colour choices, so you will definitely find one to fit into your interior.

Gaming chair

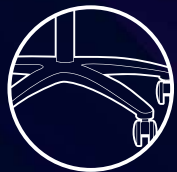

ACE 422 GAMING CHAIR

This Lorgar Ace 422 gaming chair invites you to kick back and relax. Its dense cold-moulded memory foam seat is designed to conform to your body shape. The upholstery is made of a durable anti-stain fabric – it is pleasant to your skin and easy to look after. With the included neck and lumbar support pillows, you can maintain a healthy posture and reduce fatigue during long gaming sessions. The Lorgar Ace 422 is built around a sturdy 1.8mm metal frame, making it incredibly durable. The backrest can be reclined to an impressive angle of up to 155 degrees, and the five-star aluminium base ensures stability when leaning back.

Moving around your workspace is a breeze with the large 75mm PU casters, which provide quiet movement while being safe for your floor. You can adjust the chair's height with the powerful Class 4 Gas Lift to find the perfect comfort level. The armrests are also adjustable, with four axes, including height, rotation, forward-aft, and inward-outward movement. Hands down, you can rely on these reinforced metal armrests to hold up to your use. This model can support up to 150 kilos without showing any strain.

For us, proper gaming chair design isn't just about comfort. It's about the care for our customers' well-being.

EMBRACE 533 GAMING CHAIR

The Lorgar Embrace 533 gaming chair will offer you a brand-new experience. Its dense cold- moulded memory foam seat conforms to your body shape, and premium-feel eco-leather is soft to the touch. Innovative flexible lumbar support promotes healthy posture and reduces fatigue during long gaming sessions. For your headrest, we added a removable support pillow.

The chair is designed with a sturdy 1.8mm metal frame, ensuring exceptional durability. You can kick the backrest from 90 to 155 degrees, and the five-star aluminium base will ensure proper stability. The Lorgar Embrace 533 is equipped with large 75mm PU casters, engineered to move smoothly and save your floors from any damage. The Class 4 Gas Lift provides precise height adjustment, enabling you to find the perfect comfort level. It can support 150 kilograms daily for years of operation.

The chair's armrests are adjustable in four different ways, including height, rotation, forward- aft, and inward-outward movement, allowing for a truly tailored experience. Even with heavy use, the reinforced metal armrests hold up to daily wear and tear. For us, proper gaming chair design isn't just about comfort. It's about the care for our customers' well-being.

GRACE 855

Gaming chair

GRACE 855 GAMING CHAIR

Never settle for less with this Lorgar Grace 855 gaming chair. Built around a BIFMA-certified* aluminium frame, it offers the ultimate user experience. With the breathable mesh instead of traditional upholstery, you can stay cool and comfortable in any condition. We put a lot of engineering thought into this model. It has a curved frame and reclining 3D armrests. There you can find controls for the heavy-duty Class 4 Gas Lift, which provides smooth and stable operation, not to mention the 18° seating tilt. You can also lock the tilt at any angle you'd like to. The backrest allows for a 112° recline, with the lumbar and headrest support adjustment system.

The five-star base is also made of aluminium alloy, providing excellent stability. It has 60mm PU casters attached that move smoothly and quietly on any surface. These are very gentle on the floors due to the soft-touch material covering the centrepiece. For us, proper gaming chair design isn't just about comfort. It's about the care for our customers' well-being.

RAPAX 701

Webcamera

RAPAX 701 WEBCAMERA

The world should see you through our Lorgar Rapax 701 web camera. With 6 built-in lenses and features like autofocus, auto white balance, low brightness compensation, and exposure correction, it brings a level of clarity you haven't seen before. A high-performing CMOS Imaging Sensor provides video quality up to 2560x1440p (QUAD HD) at 30fps and 1920x1080p (Full HD) at 60fps. Whether gaming, working, or chatting, you'll get a pixel-perfect image plus an optimized viewing angle. A few more things: our Lorgar Rapax 701 camera is equipped with highly sensitive stereo microphones covering 30 to 300 cm speech distances. A privacy shutter, 360-degree rotation, and angle setting are also included. You can easily mount the camera on your monitor or place it on a tripod. With Plug & Play technology support, it takes minutes to set your device up and get started. What's more a web camera can offer?

Video quality

High-performance CMOS

Plug & Play connection

6 BUILT-IN LENSES

A combination of six lenses with varying characteristics allows for high image quality.

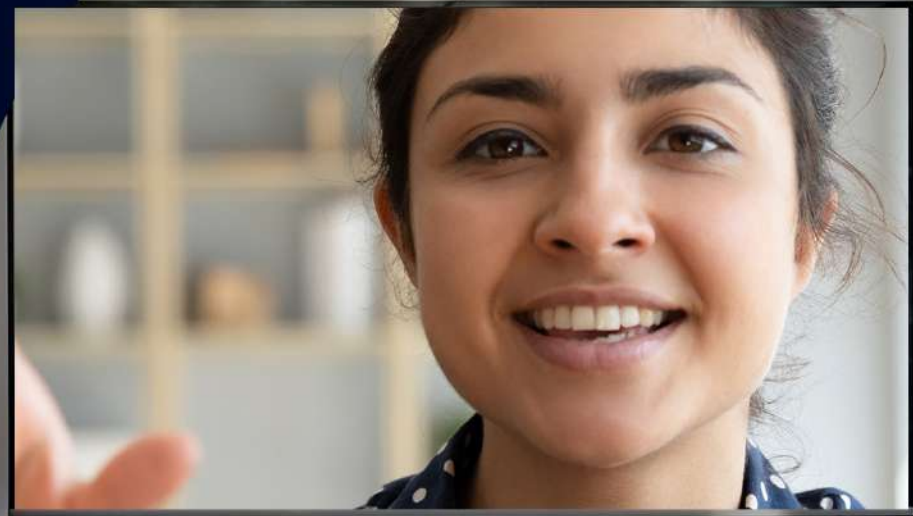

HIGH-PERFORMANCE CMOS IMAGING SENSOR

High-resolution optics provide benchmark detail and let you record videos of QUAD HD quality.

DIGITAL ZOOM

4x digital zoom enables you to adjust the image regardless of where the camera is mounted.

4X

STEREO MICROPHONES

Omni-directional and high-sensitive microphones register sound at distance up to 3 meters.

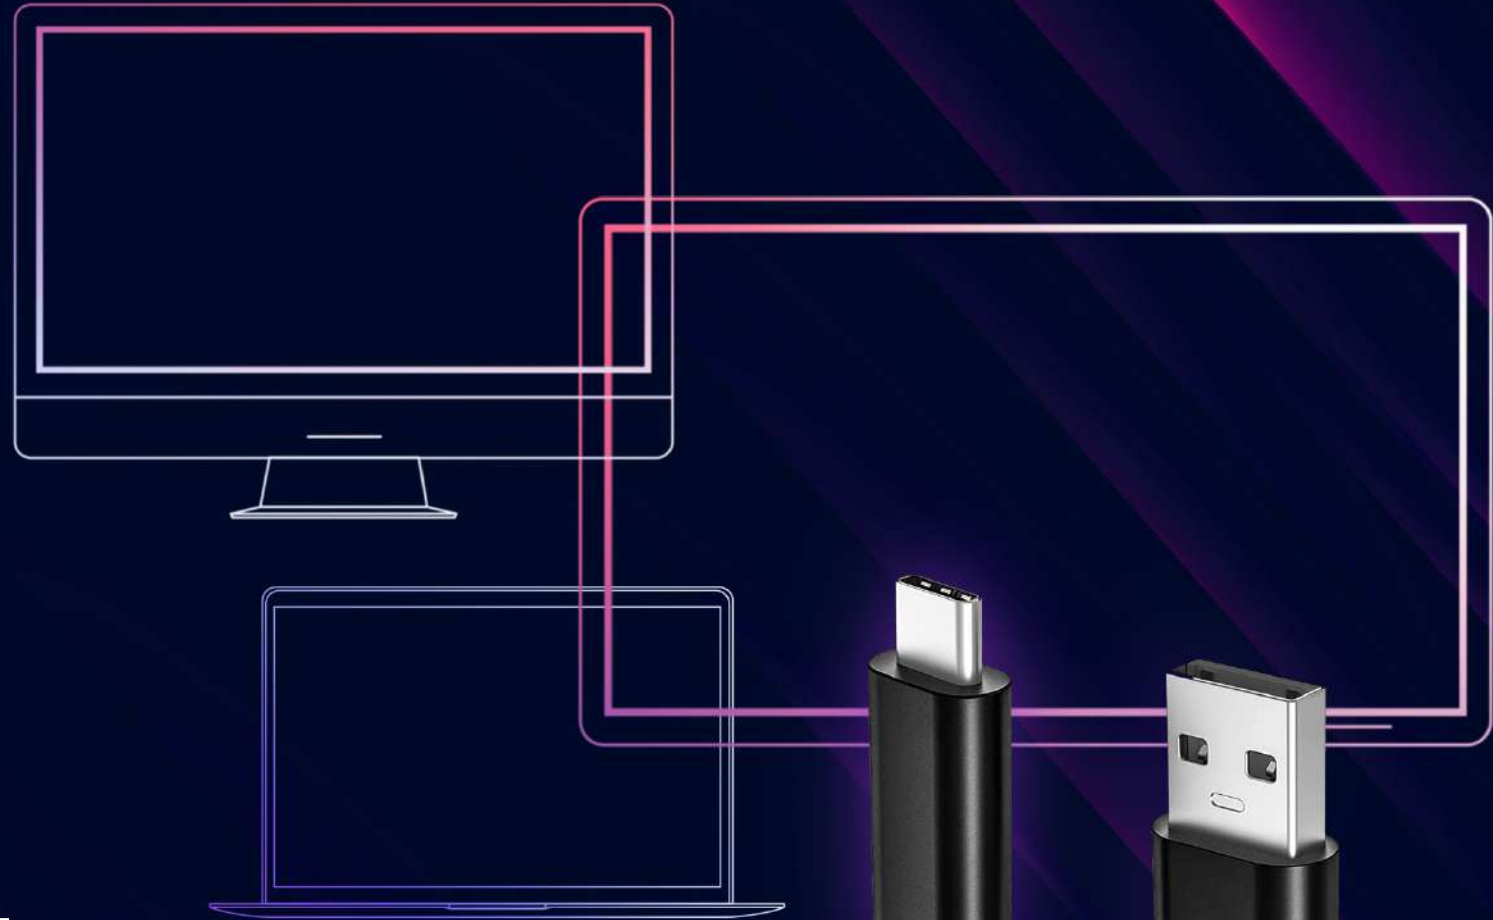

PRIVACY SHUTTER

Maintain your privacy while the camera is not in use.

UNIVERSAL MOUNT

With a built-in universal mount, you can easily place the camera on your laptop, desktop or desk. 360-degree rotation and vertical angle setting allow you to stay in focus at all times. The device also has a standard 3/8" screw mount for your tripod (not included).

TYPE-C CABLE

Plug & Play technology support lets you set the camera up fast and get going – no special skills or additional software required. Stay flexible and place your camera wherever you want with a 2-meter USB-cable.

CIRCULUS 910 LIVE STREAMING WEB CAMERA

Shine bright with the Lorgar Circulus 910 web camera. Built around a Sony® STARVIS™ CMOS sensor and a full-glass lens, this camera brings an image quality seldom seen in web cameras. It performs like a champ: record 1080P video at 60FPS, with an option of 3x digital zoom and professional autofocus technology.

But hold on – this is a 2-in-1 camera! It is equipped with a ring light that makes any place look like a studio. The brightness and colour temperature are adjustable on the go, and so is the orientation. You can also use it as a desk lamp – just tilt it forward. Stereo mics with active noise reduction guarantee that your voice will sound amazing.

A magnetic privacy cover conveniently attaches to the back of the camera when you take it off the lens.

Connect your Circulus 910 webcam with a Type-C cable and get this show on the road. The camera is perfectly compatible with Android, macOS, Windows, and SmartTV. The tripod is included, and you'll like it a lot! With the wide range of motion, you'll be able to put it behind your 13" laptop or a large gaming monitor at home. The tripod is also foldable and has a standard thread so that you can use it with the other accessories. Build a bolder image with Lorgar Circulus 910!

MICROPHONES

SONER 313

Professional Microphone

SONER 313 PROFESSIONAL MICROPHONE

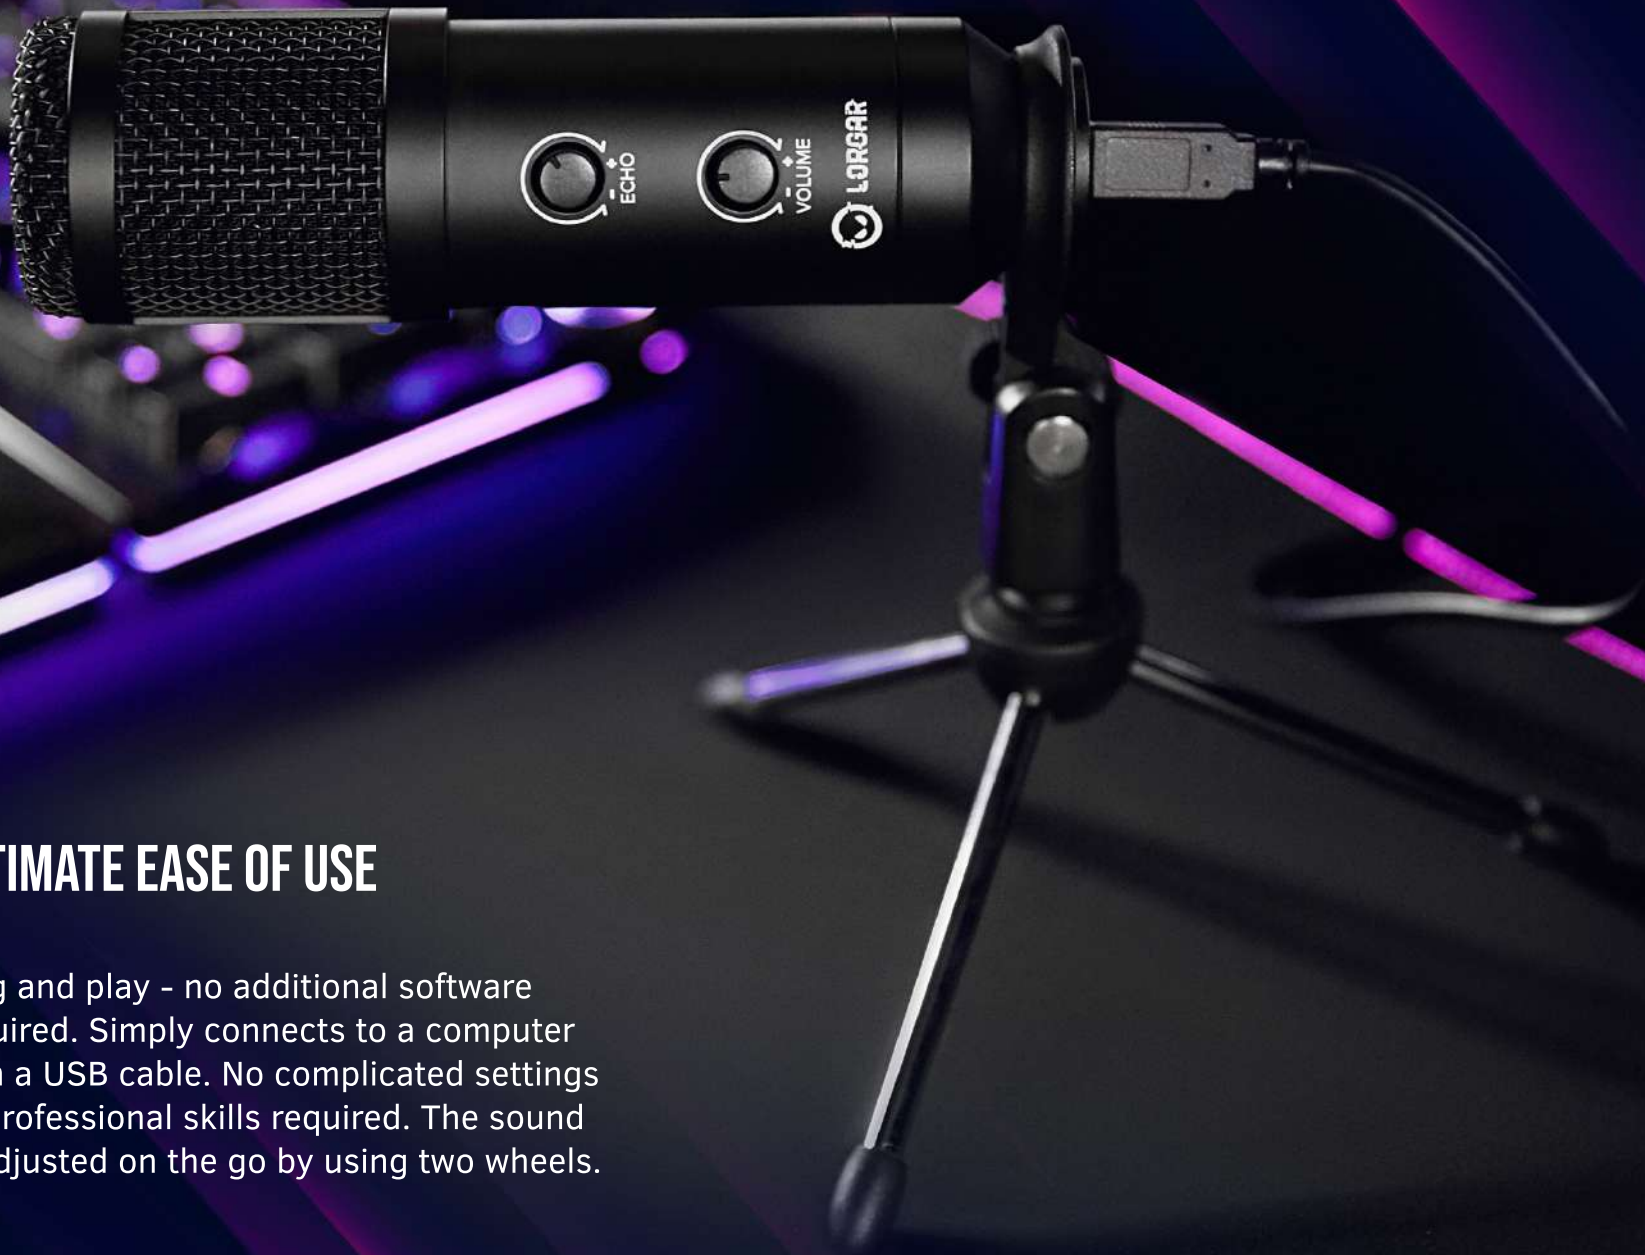

Chat with teammates during game battles, host streams and work meetings, record podcasts, and enjoy the great sound quality brought to you by Lorgar!

The Soner 313 USB Microphone is a simple and affordable way to get a 48 kHz reference frequency at 16 bit. The microphone has a cardioid polar pattern, ensuring clear voice transmission due to suppression of external sounds and noise. The sensitivity of the gadget is approximately 40 dB, and the operating frequency range is from 80 Hz to 17 kHz. The volume and sound quality are easy to adjust due to the comfortable location of controllers. The microphone stand is stable and allows you to position the microphone at the desired angle quickly. A fully detachable 2.5 m USB cable with plugs at both ends is used for a connection. The device does not require additional software or special skills - all you have to do is connect a microphone to the USB input of your computer and start chatting. The design of the lower part of the device allows it to be used with additional pantographs and tripods. The best solution for a comfortable game and work!

- High quality sound
- Plug & Play
- Compatible with Mac, Windows, Android and Sony PlayStation
- Supports Discord, OBS, FL Studio, Skype etc.
- Cardioid polar pattern
- Solid metal design
- Volume wheel
- Echo wheel
- 2.5 m USB cable A-male to B male
- Tripod included

● LRG-CMT313 | black | 5291485008369

ULTIMATE EASE OF USE

Plug and play - no additional software required. Simply connects to a computer with a USB cable. No complicated settings or professional skills required. The sound is adjusted on the go by using two wheels.

A WIDE RANGE OF APPLICATIONS

Suitable for all microphone use cases. In-game communication, streaming, podcast recording, work meetings. Supports Discord, OBS, FL Studio, Skype, and other programs.

Compatible with Mac OS, Windows, Android, and PlayStation.

OMNI-DIRECTIONAL CARDIOID PATTERN

Picks up sound from the front and eliminates all noises from the sides. Engineered for high-quality voice recordings. Recommended for online gaming, streaming & podcast recording.

DEVICE DESCRIPTION

Echo wheel to reduce reverberation and control sound clarity

Durable metal body, high-quality build

Volume wheel for fast and accurate volume control

Easy adjustment of height, tilt and swivel

Stable tripod stand

TECHNICAL PARAMETERS

Power supply: 5 V

Polar pattern: Unidirectional (cardioid)

Frequency response: 80Hz - 17KHz

Sensitivity: -40 dB \pm 3 dB

Maximum sound pressure level: 130dB

(at 1kHz \leq 1% T.H.D)

Signal-to-noise ratio: 78 dB

Sampling rate: 48 kHz

Electrical Current: 35 mA \pm 5 mA

MATERIALS AND DIMENSIONS

Materials: ABS plastic, metal

Product dimensions: 129.1 x 176.0 x 120.6 mm

Package dimensions: 47.4 x 158.2 x 48.1 mm

Product weight: 243 g

VOICER 521

Professional Microphone

VOICER 521

PROFESSIONAL MICROPHONE

The Lorgar Voicer 521 is the first microphone in the Lorgar premium line. You can confidently use it for all your needs – game battles, work meetings, recording podcasts, or streaming. Thanks to the “Tap-to mute” touch button on the microphone, you can instantly mute the sound with a light touch. A sound indicator will show whether you went live. The built-in sound card allows you to connect headphones directly to the microphone and monitor recording progress without booting up your computer or recorder. It offers an optimal audio format of a reference frequency of 48 kHz, with a bit rate of 16 bits.

The microphone has a cardioid polar pattern, ensuring clear voice transmission due to suppression of external sounds and noise. The gadget has optimal sensitivity - about 40 dB and a wide range of operating frequencies - from 50 Hz to 18 kHz. Adjusting the volume and quality of the sound, output signal level, and instant mute are quick and intuitive. The microphone stand is stable and quickly positions the microphone at the desired angle and rotates 360°. A fully detachable USB Type-C cable 2 m long with plugs at both ends is used for the connection. The gadget does not require additional software or special skills - just connect the microphone to the USB input of your computer and start recording!

- Professional sound
- Robust metal construction
- Plug & Play
- Volume and sensitivity control
- Compatible with Mac OS, Windows, Android, and PlayStation
- Tap-to-mute touch button for instant mute
- Supports all popular software for audio communication and streaming
- Microphone status indicator
- Connects to headphones
- Output level control directly on the microphone
- Cardioid polar pattern
- Fully detachable 2m USB Type-C cable
- 360° adjustable tripod included

VOICER 721

Professional Microphone

VOICER 721

PROFESSIONAL MICROPHONE

Want your gaming streams and recordings to sound better?

The Voicer 721 by Lorgar is designed specifically for gamers and will provide a reference voice transmission rate of 48 kHz, with a bit rate of 16 bit. In addition, the microphone has a cardioid polar pattern, ensuring clear voice transmission due to suppression of external sounds and noise.

The sensitivity of the gadget is approximately 40 dB, and the operating frequency range is from 50 Hz to 18 kHz. Adjusting the volume and sound quality is quick and handy. This "Plug & Play Package" offers everything you need for quick setup and work: 2m USB Type-C cable, tripod, shock mount, and mounting accessories. A shock mount, pop filter, and foam windscreen will improve the quality of voice recording by blocking extraneous noise from air and vibrations. The tripod is extremely stable and allows you to position the microphone at the desired angle quickly. The microphone is compatible with most popular programs and does not require additional software or special skills to use. Maximum convenience for creativity and communication!

- Professional sound
- Plug and Play system
- Cardioid polar pattern
- Nickel-plated diaphragm
- Volume control
- Mute button with LED indicator
- 360° Rotation & 180° Tilt
- Headphone out - jack 3.5 mm
- The kit includes 2 m USB-C cable, tripod stand, shock mount, windscreen cap, 3/8" to 5/8" universal pantograph adapter, pop filter, tripod mount ring
- Compatible with Mac, Windows, Android and PlayStation
- Supports Discord, OBS, FL Studio, Skype, etc.

GAMING ACCESSORIES

MOUSE PADS

MAIN 133 / 135 / 139

Gaming mouse pads

MAIN 133, MAIN 135, MAIN 139 GAMING MOUSE PADS

These Lorgar gaming mousepads are going to change your perception of control. The Main High-Speed is a series designed for fast mouse movement. Its super glide surface was made possible thanks to the special low-resistance fibres – and you can rest assured the manoeuvrability of your mouse is stellar. Thick 3mm foam with a trimmed edge provides excellent comfort, and the anti-slip rubber base will stay put no matter what. Have no worries about compatibility – all sensor types work with these pads.

This series comes in three sizes: medium, large, and extra large. Choose the one that fits your gaming setup best!

Perfect gliding

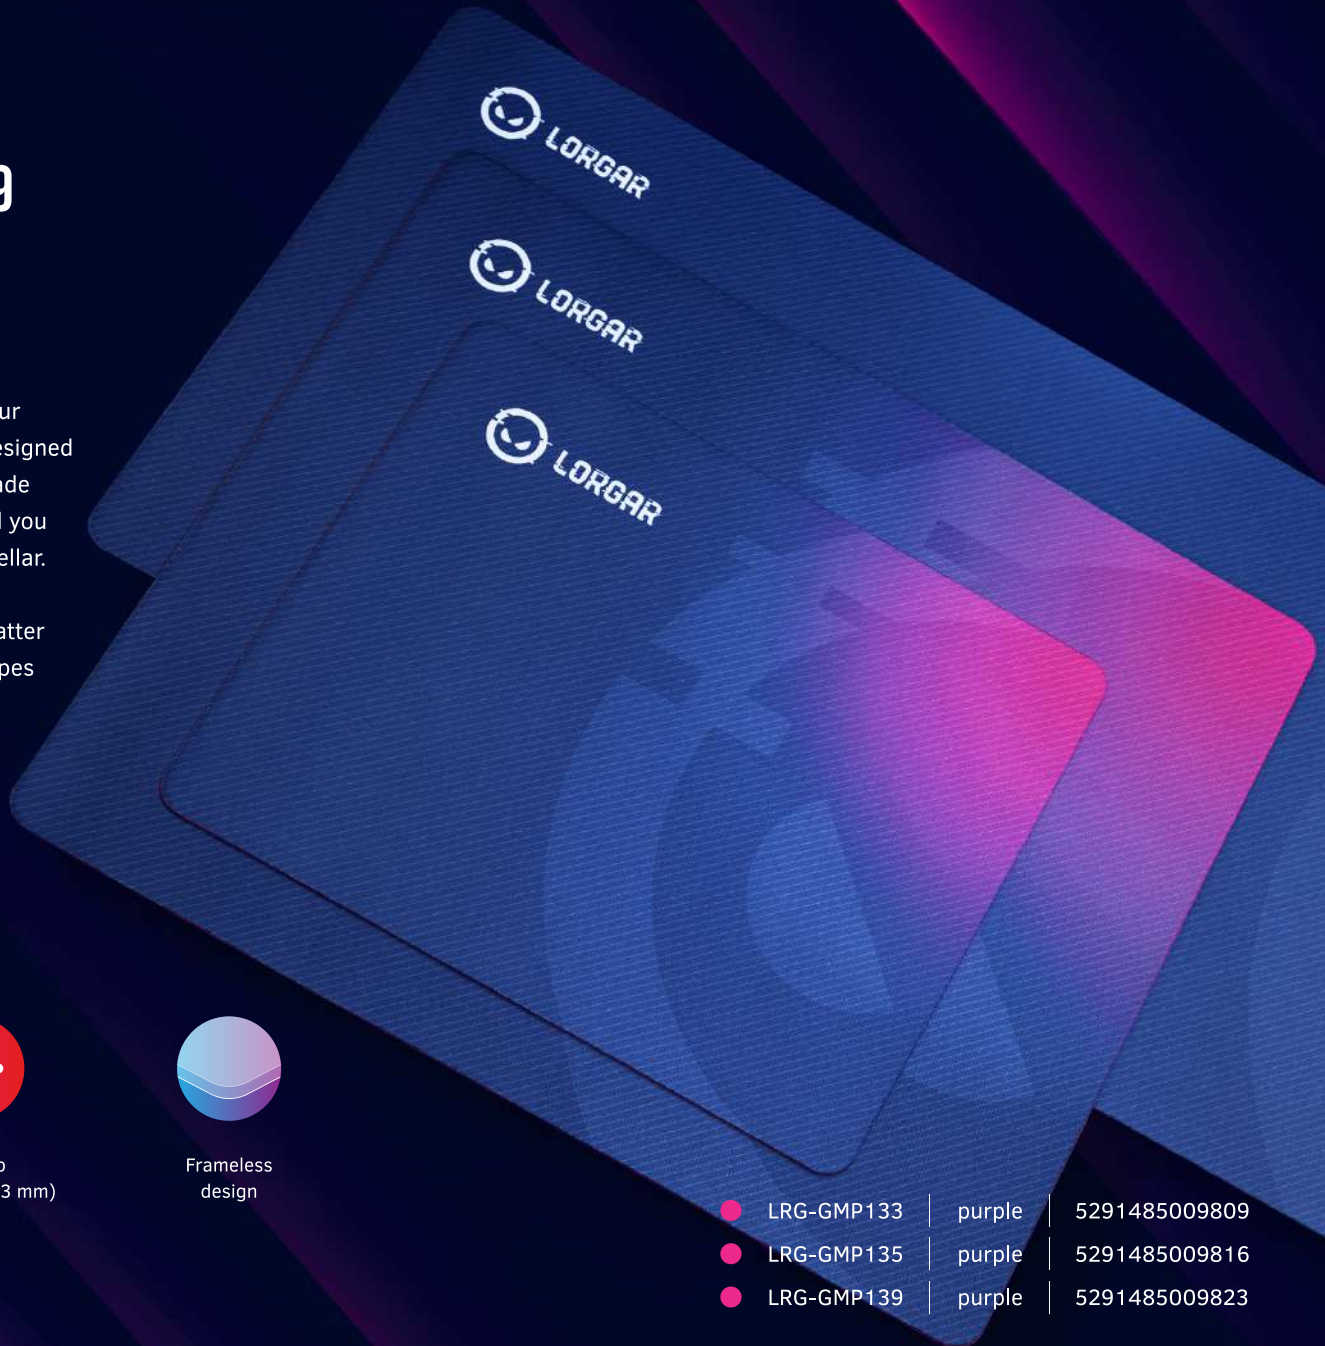

Surface type:
speed

Anti-slip
rubber base (3 mm)

Frameless
design

● LRG-GMP133	purple	5291485009809
● LRG-GMP135	purple	5291485009816
● LRG-GMP139	purple	5291485009823

SUPERIOR GLIDE SURFACE

Crafted by the best engineers in the industry, the smooth, low-resistance fibres will make your mouse lightning fast. Super glide surface also ensures excellent manoeuvrability of the controller.

ANTI-SLIP RUBBER BASE

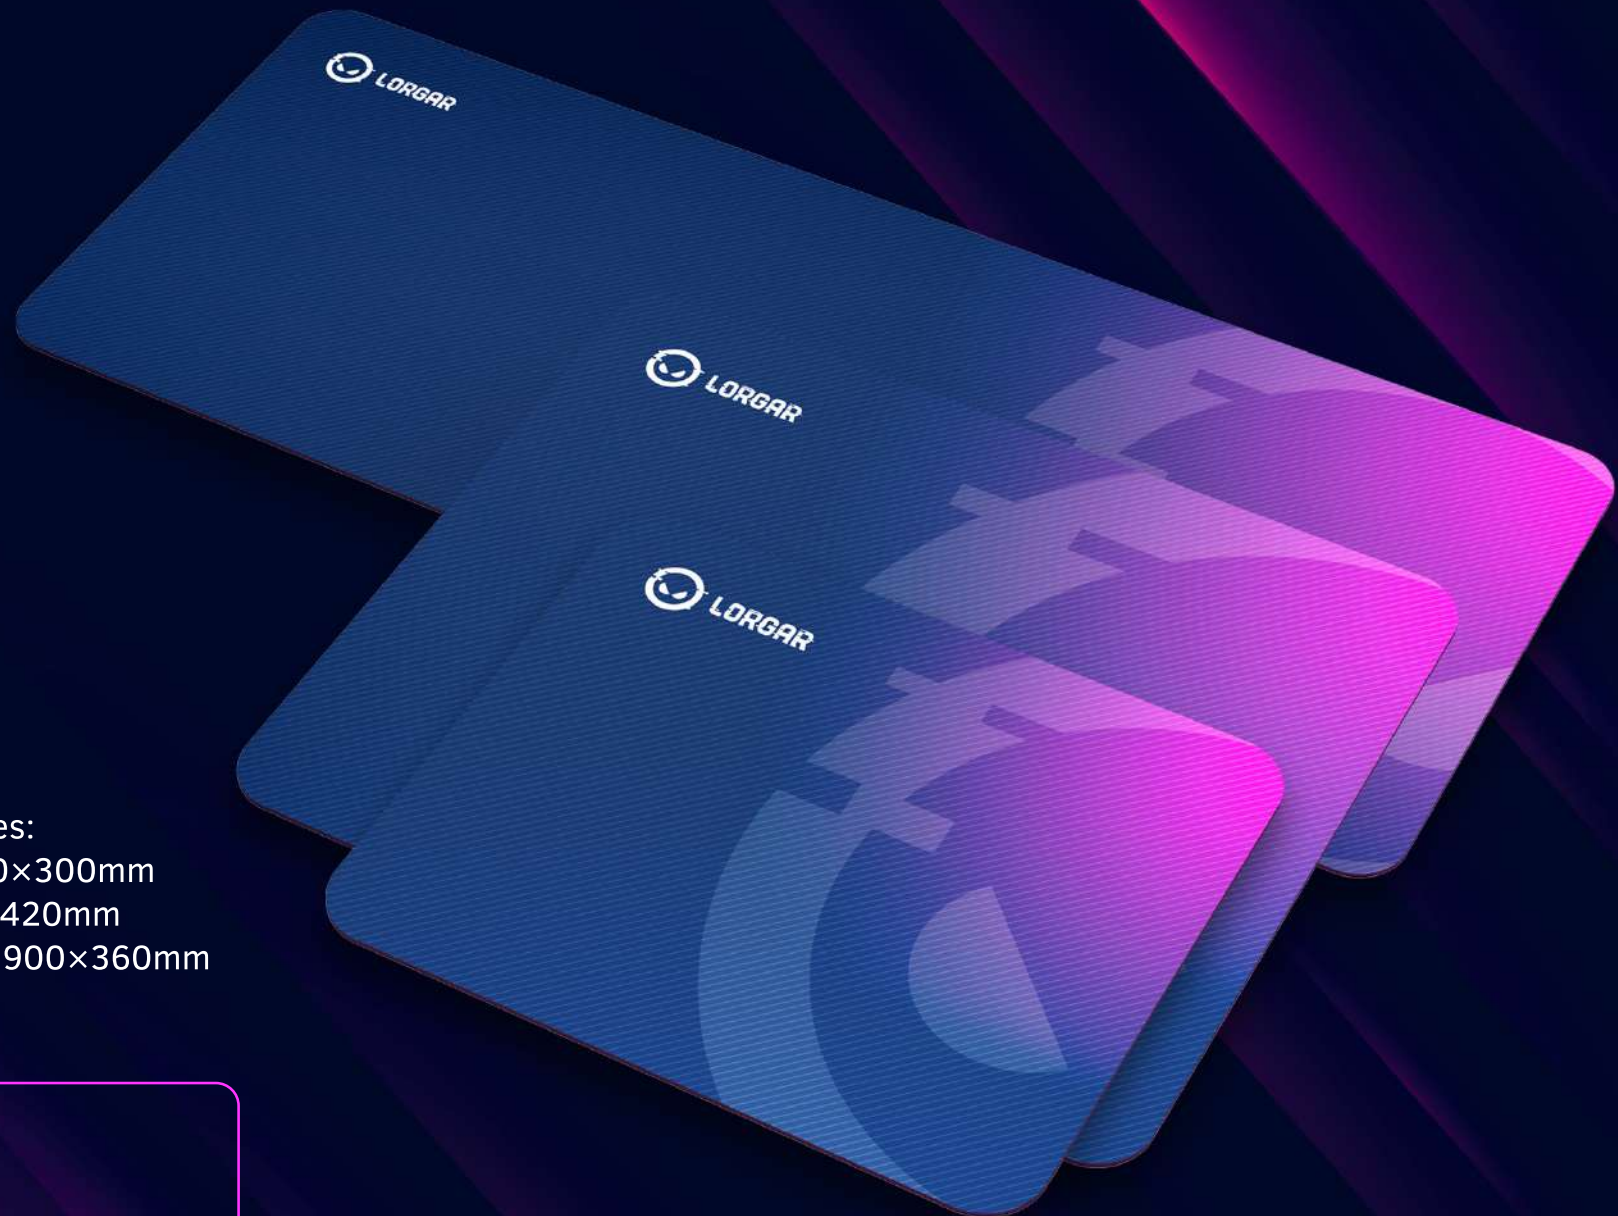

The superior anti-slip rubber base is as good as glue. It is embossed with the Lorgar logo – gives at least +5 points to your skill. With the total pad thickness of 3mm, you'll be extra comfy.

TRIMMED EDGES

The edge is trimmed for a smoother forearm experience.

DIFFERENT SIZES

These come in three sizes:

Main 133 – Medium, 360×300mm

Main 135 – Large, 500×420mm

Main 139 – Extra Large, 900×360mm

KEYCHAIN INSIDE

Be sure to retrieve your branded Lorgar keychain before you throw the package away.

MAIN 313/ 315/319

Gaming mouse pads

MAIN 313, MAIN 315, MAIN 319 GAMING MOUSE PADS

These Lorgar gaming mousepads will change the way you feel movement. We created the Main High-Speed series for you to be faster than your opponents, and that's not the only advantage. The super glide surface was made possible thanks to the special low-resistance fibres – and it feels like the mouse is flying. Thick 3mm foam with a double-stitched edge provides excellent comfort and durability. The anti-slip rubber base won't go anywhere unless you really want to. Don't worry about compatibility: every sensor works fine with these pads.

This series is available in three sizes: medium, large, and extra large. Choose the one to your liking, and go get some frags!

MAIN 323 / 325 / 329

Gaming mouse pads

MAIN 323, MAIN 325, MAIN 329 GAMING MOUSE PADS

Here comes the game changer. The Lorgar Main Precision Control series are mousepads that'll make your movement rapid and deadly accurate. The high-resistance surface is made of special thermoplastic fibres with tiny uniform bumps – the mouse will stop dead in its tracks. Thick 3mm foam with a double-stitched edge offers extra durability and comfort. The anti-slip rubber base will help the pad to stay precisely where you put it. No worries about compatibility: every sensor works perfectly with this type of surface.

These pads are available in three sizes: medium, large, and extra large. Get one and show 'em some surgical precision!

LEGACER 753/755

Gaming mouse pads

LEGACER 753, LEGACER 755 GAMING MOUSE PADS

Here comes Lorgar Legacer: a mouse pad made to enhance your gaming experience. Legacer series is designed to give you an edge over opponents, with an ultra-smooth glide surface made possible by unique weaving.

You'll feel like your mouse is flying across the surface, making your movements faster and more precise. This nylon material is ready to withstand any abuse, plus there is a water-resistant, easier-to-clean coating. The mouse pad is 3mm thick with a double-stitched edge. The anti-slip rubber base ensures the mouse pad stays in place during intense gaming sessions. You don't need to worry about compatibility either, as every sensor works well with this mouse pad. By the way, we added a Lorgar luminescent logo that glows in the dark. It could help you find your mouse pad once you turn off the lights in your gaming room. The Lorgar Legacer comes packaged in a nice tube, ready to be a gift for a true gamer.

Due to its extreme durability, your grandkids might have a chance to use this mouse pad, too – that's why we called it "Legacer." It is available in two sizes: medium and large. So, choose the one that suits you best and get ready to dominate the competition.

Ultra gliding surface

Water resistant

Anti-slip rubber base

Double stitched edges

● LRG-CMP753	black/purple	5291485009786
● LRG-CMP755	black/purple	5291485009793

OUTSTANDING SURFACE STRUCTURE

A special surface structure ensures ultra-speed. The material has a staggeringly low resistance, thus providing you with the fastest glide possible. The surface is compatible with all types of sensors.

EXTREME DURABILITY

The nylon fibre of special weaving is astonishingly durable – we're talking military-grade durable. You can leave this mouse pad to your grandkids.

LUMINESCENT LOGO

The Lorgar logo glows in the dark — nice touch for playing with your lights off.

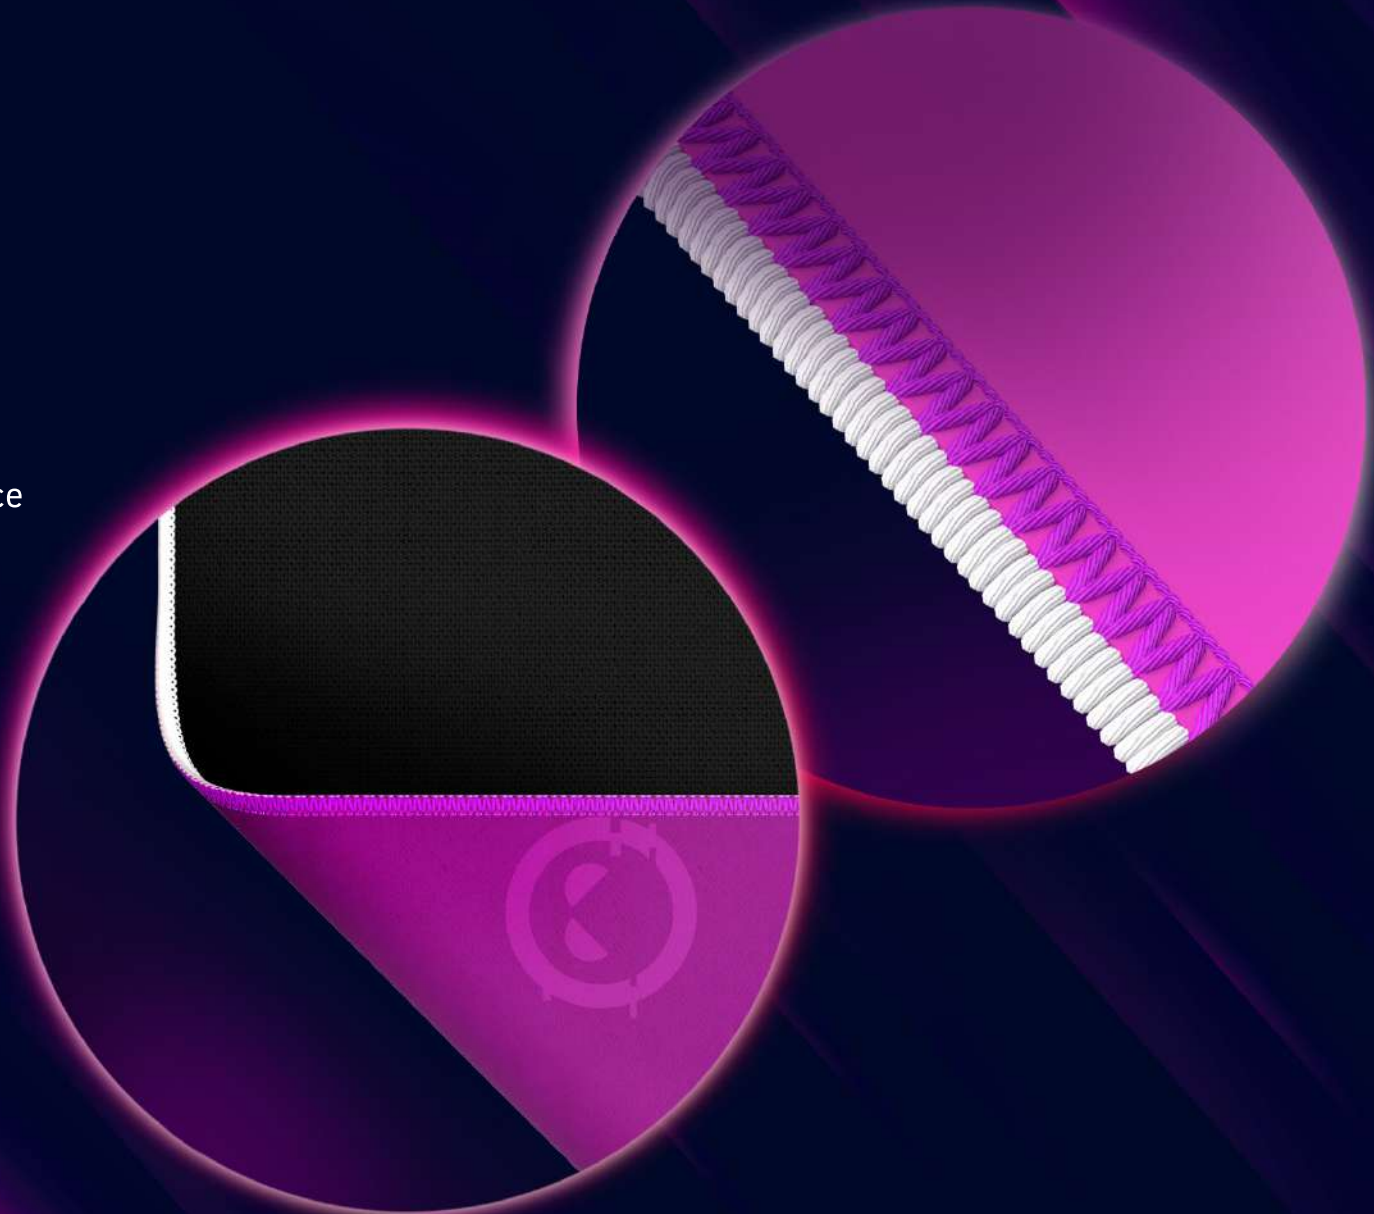

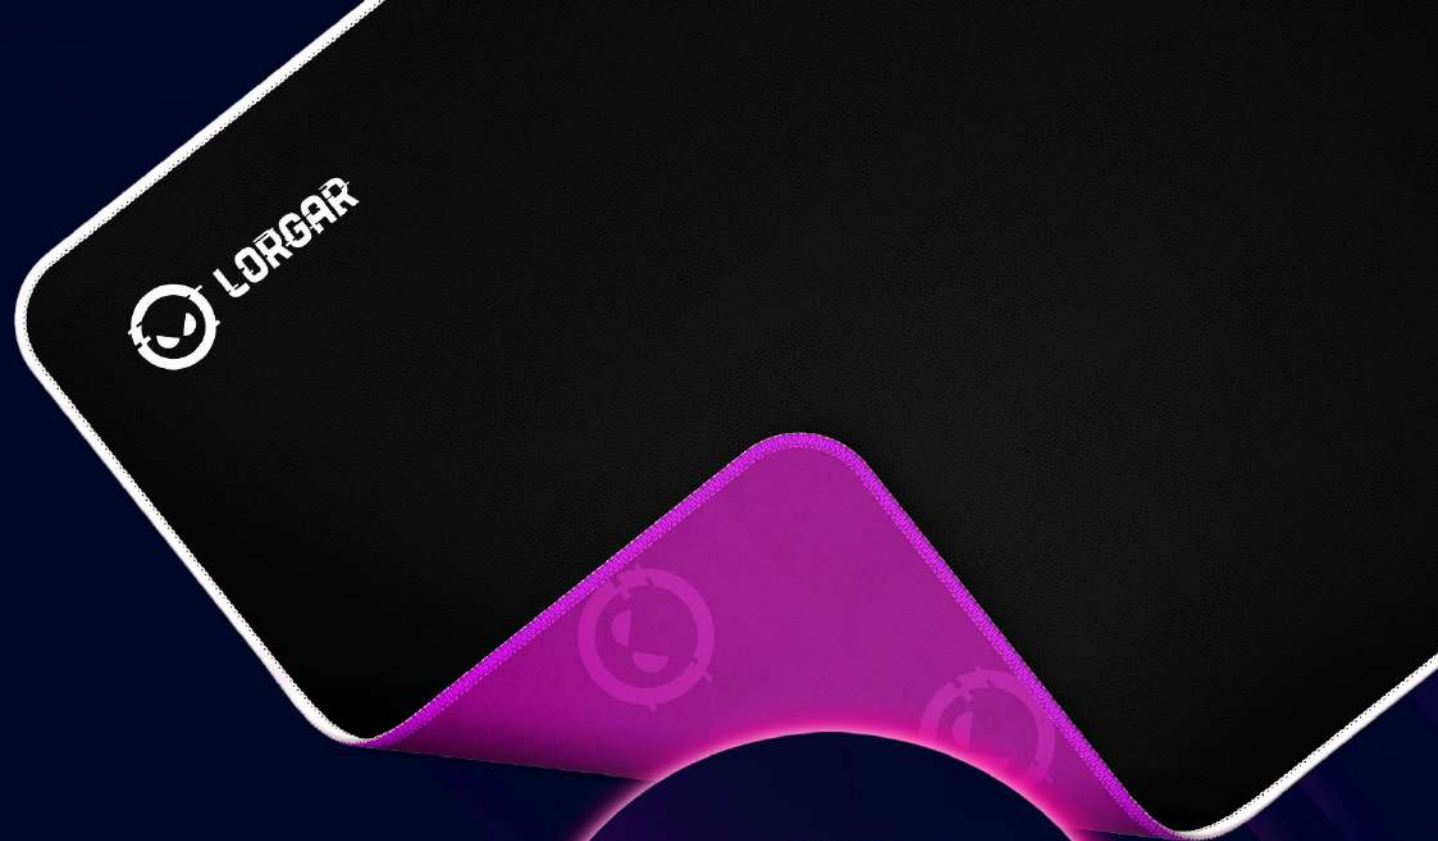

CLEANABLE WATER-RESISTANT COATING

There's a water-resistant coating repelling sweat and dirt. This coating also allows for easier cleaning.

DOUBLE-STITCHED EDGES

The edge is double-stitched with white and purple thread. That means increased resistance to wear and tear, keeping your forearm comfy.

ANTI-SLIP RUBBER BASE

The anti-slip rubber base keeps the mouse pad firmly in place. The base is embossed with the Lorgar logo.

SIZE & PACKAGING

This mouse pad comes in a neat tube – it may serve as a gift box.

STELLER 913/919

Gaming mouse pads

STELLER 913, STELLER 919 GAMING MOUSE PADS

The Lorgar Steller mouse pads will revolutionize your gaming setup. The super glide surface with low-resistance fibers makes your moves fast and agile. Have no worries about compatibility – the Steller’s surface is friendly to every sensor type. No matter how active your movement is, the anti-slip rubber base keeps your mouse pad steady.

The mouse pad has an advanced RGB backlight, but words aren’t enough: you need to see it in action. Connect the Steller mouse pad to your gaming rig via USB and customize it with Lorgar Platform. While you’re at it, sync it with compatible Lorgar devices, such as your Lorgar mouse. Now, what you’re getting is a mesmerizing and synchronized lighting experience that looks jaw-dropping.

Available in medium and extra-large sizes. Choose the one and dominate the game!
