# About

## **Canyon Smart Watches - gadgets for an active lifestyle!**

Canyon offers the array of wearables for all types of physical activity. From classical fitness bands that track daily steps to full-fledged virtual trainers that help to maximize your achievements in sports.

## **Superior performance**

With Canyon smart watches you can monitor daily activity, heart rate, ECG, sleeping time, get sedentary reminders as well as track multi-sport workouts, steps, receive training advices and more. Stay online - get incoming calls, message alerts and reminders from your smartphone. Some of the models are synced with Strava, the most popular fitness app. Canyon watches are designed in trendy shapes and colours, using pleasant-touch hypoallergenic materials. Visual interface is always clear and user-friendly. All models are protected from dust and water.

## **Canyon Life – custom Android and iOS Application**

Canyon Life App syncs data with a smartphone, keeps it safely stored in a user-friendly interface. Advanced algorithms analyze stats, giving fitness tips. Canyon software dev team updates the app and provides personal user support.

## **Care about your loved ones**

Canyon offers a range of GSM watches for kids and seniors with SOS buttons, location tracking, voice messaging and more. Take care about your children or elderly parents using the all-in-one smart solution by Canyon!

# Canyon Life App

4.4 ★  
6.77 K reviews

500K +  
downloads

Our Canyon Life App, tailored to the whole range of smartwatches, allows users to make the most of their devices. Notifications from e-mail, messengers and calendar, control over the important personal health and sports readings, and even the remote access to the data from your kid's tracker – this list of app features is far from exhaustive. This app provides stable work and perfect data security. You can access all the necessary information no matter what model you're using today. Canyon Life App is one step ahead of your expectations!

# Advantages of Canyon Life App

Built-in setup master helps to connect watches properly

Correct multilingual adaptations to 35 languages

Instant detection and connection to your watch

Compliance with the EU General Regulation of Data Protection, Storing and Processing (GDPR)

Stable work with no lags

Messaging, calls and social notifications. Sports activity status.

Clearly understandable stats tracked per each workout and per day

All your watches and watches of your kids can be connected to one application

Track your route during sports activities\* and monitor your kids` location

\*for watches with GPS function

## Smart Watch

# Maverick SW-83

The Canyon Maverick SW-83 is a smartwatch designed for fitness enthusiasts who want to track their outdoor activities and stay connected with the world. Perfect for runners, cyclists, and hikers as it comes with a high-accuracy GPS module and compatibility with the Strava APP.

Its high resolution 1.32-inch IPS touchscreen is strikingly smooth. The watch is also true IP68 waterproof, which means it can withstand water submersion up to 1.5 meters deep for 30 minutes. Keep wearing this watch while swimming, showering, or kayaking – Maverick won't let you down.

This watch is designed to help you stay on top of your health and fitness goals. It tracks your steps, calories burned, and sleep patterns. Plus, it provides continuous heart rate monitoring, allowing you to keep track of workouts and monitor stress levels. The blood oxygen sensor here is real and provides precise information about your blood oxygen saturation.

There are a whopping 128 sports modes, including 5 GPS-tracked modes. This feature allows you to track your workouts accurately, whether running, cycling, hiking, or engaging in any other physical activity.

The battery life is impressive, with up to 7 days of working time and up to 30 days of standby time. Basically, you can use your watch for an entire week without charging. When the battery runs low, use the magnetic charging cable included in the package.

Canyon Maverick is a versatile and feature-packed smartwatch, a must-have for anyone who loves to lead an active lifestyle.

# TRUE HIGH-ACCURACY GPS

This watch has its own high-accuracy positioning module, allowing you to precisely track the location.

## HIGH RESOLUTION IPS SCREEN

Experience perfect display picture – Maverick's 1.32-inch IPS touchscreen is something you need to see. With its high resolution of 360×360 pixels, every detail is crisp and pleasant to your eye.

## STAY FIT!

Maverick has 128 sports modes, including 5 GPS sports modes, and offers full compatibility with the Strava app. You can track your workouts, analyze your performance, and compete with other users. The GPS module on board ensures that your data is accurate and reliable.

A swimmer in a pool, wearing a black swim cap and goggles, is captured in a dynamic, forward-leaning swimming posture. The water is a deep blue, and there is a splash of white water around the swimmer's head and arms. In the upper left corner, there are several teal-colored geometric shapes: a small square, a parallelogram, a larger square, another parallelogram, and a small square, all arranged in a cluster. The word "WATERPROOF" is written in bold, white, uppercase letters across the middle of the image, partially overlapping the swimmer's head and the teal shapes.

# WATERPROOF

The watch is IP68 waterproof, which means you can wear it while swimming or showering without any worries. Wear it to the beach or canoeing with your friends — it will endure being submerged 1.5 meters deep for up to 30 minutes.

# **REAL OXYGEN SATURATION SENSOR**

**There's a high-precision blood oxygen sensor that actually measures the oxygen saturation in your blood and can be a useful indicator of your overall health.**

A man with dark hair and a beard is sleeping peacefully in a bed. He is wearing a white t-shirt and is covered up to his chest with a teal blanket. His head is resting on a light blue pillow, and his hands are clasped under his chin. In the background, a white nightstand holds a smartphone. The room is dimly lit with a blueish tint. On the left side of the image, there are several yellow geometric shapes: a small square, a parallelogram, a larger parallelogram, and another small square, all arranged in a vertical sequence.

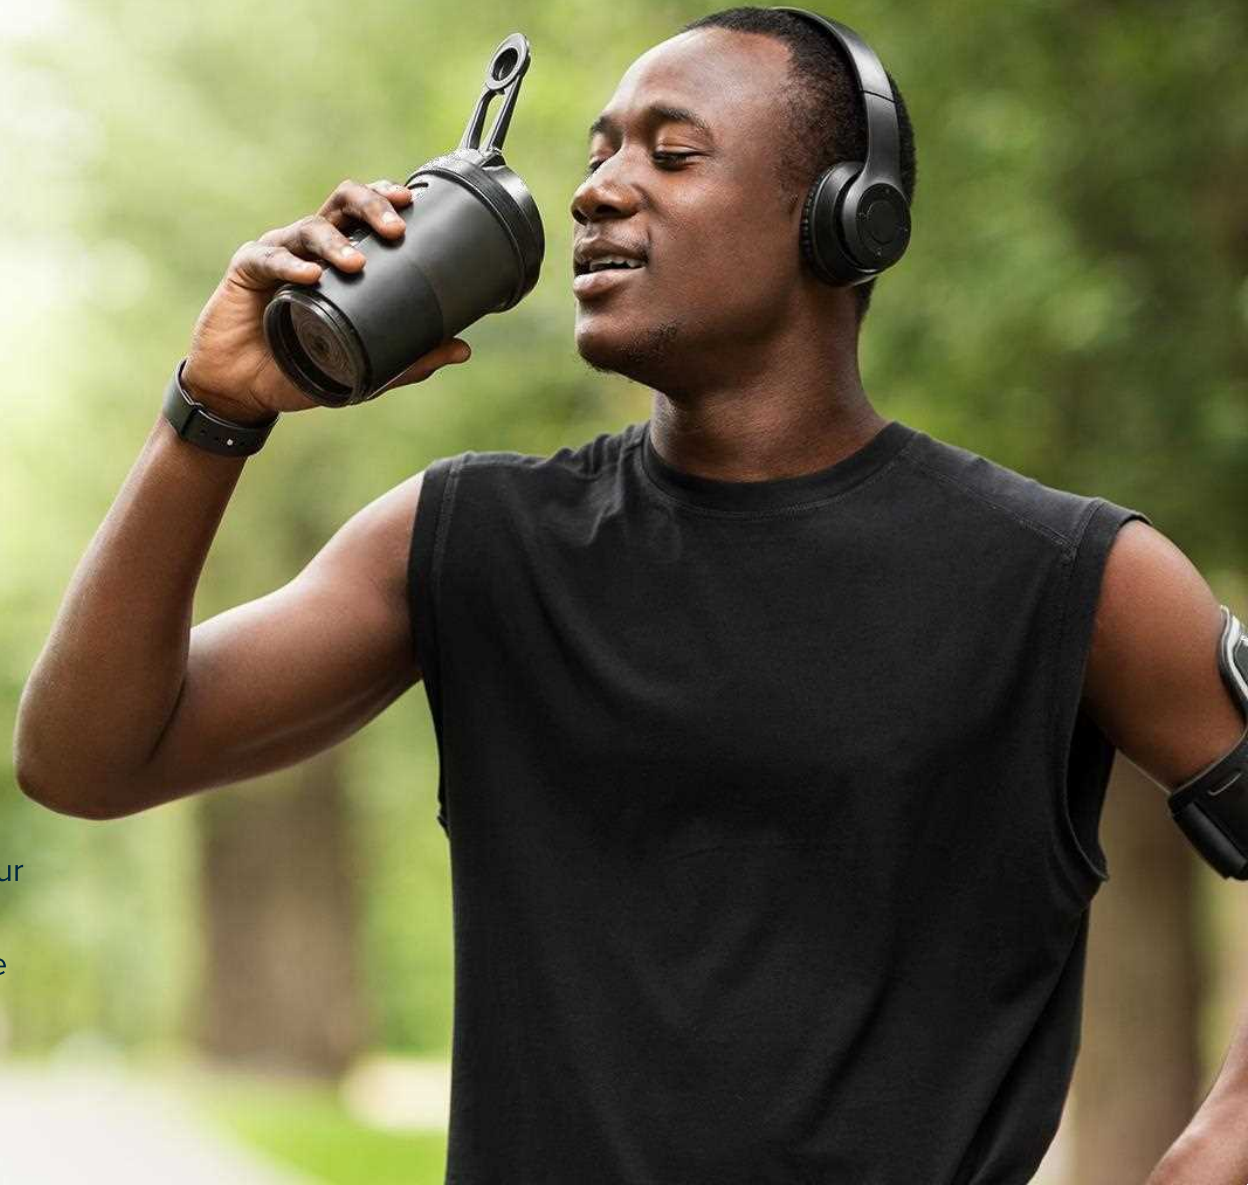

## KEEP YOUR WELLNESS ON TRACK

Maverick has an impressive array of features to help you stay on top of your health and fitness goals. It tracks your steps and calories burned throughout the day, monitors your sleep patterns, and provides real time heart rate monitoring. You'll be notified if your stress levels are higher than normal.

## IMPROVED USER EXPERIENCE

Stay connected with apps and push notifications, control music playback and camera shutter from your wrist. Raise your hand, and the screen turns on automatically. With the find phone & watch feature, you'll always know where your device is. Choose from 12 pre-installed watch faces or create your own with the DIY watch face option. Plus, access over 150 additional watch faces via the Canyon Life App.

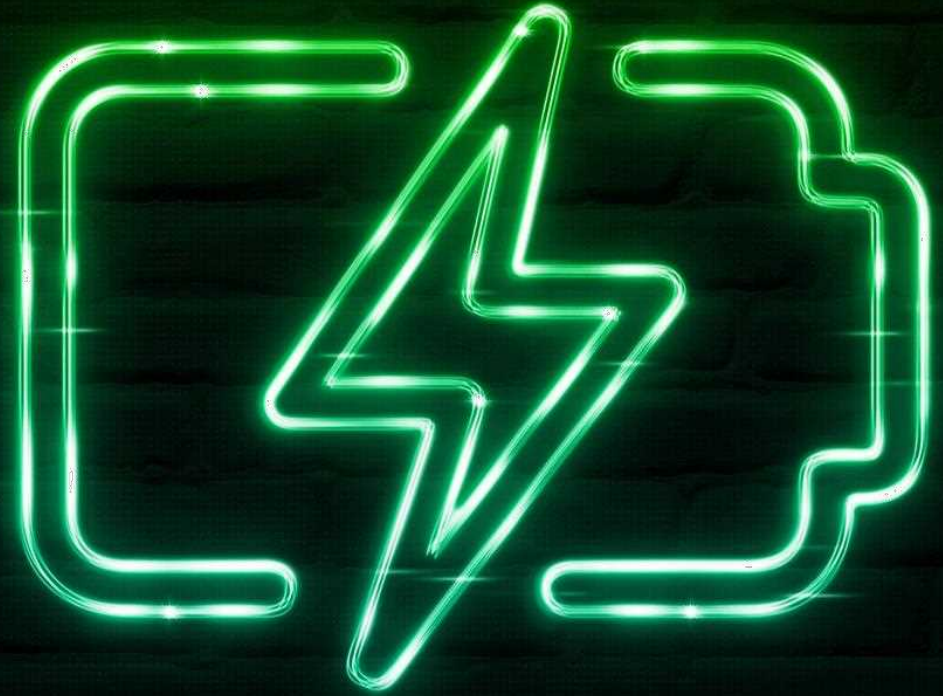

## LONG LIFE BATTERY

Maverick has an impressive battery life thanks to its high-voltage 400 mAh battery, with up to 7 days of working time and up to 30 days of standby time. This means you can wear it all day and night without having to worry about recharging it.

A promotional graphic for a smartwatch. On the left, a dark blue rectangular area contains the text 'SMARTWATCH OTTO SW-86' in white, bold, sans-serif font. To the right, a close-up of a smartwatch face is shown. The watch has a black bezel and a white dial with a teal-colored digital display. The display is divided into several sections: a large '04' at the top left, a date 'THU 24' at the top right, a step counter '21234 steps' in the middle right, and a heart rate monitor '107' at the bottom left. A large '58' is displayed at the bottom right. A red diagonal graphic element is positioned above the watch face.

# SMARTWATCH OTTO SW-86

## Smart Watch

# Otto SW-86

Otto is a distinct smartwatch created by Italian designer. It's unique shape with octagon bezel is able to perfectly emphasize your dynamic individuality and style. It will tell time and weather and receive notifications on calls and messages – just sync it with your smartphone. There are 25 sports modes, swimming included: this watch is waterproof by the IP68 standard. It can monitor your heart rate, blood pressure, sleep, count steps, and remind you to drink water. Control your music playback and camera right from the wrist. Choose from six watch faces or download new ones – the device is fully customizable. And you don't have to charge it daily because Otto lasts up to 7 days in active mode! With this smartwatch, you can stay focused on important things in life.

Please note that we care about your privacy – the Canyon smartwatch follows the GDPR standard and protects your personal data.

## Smart Watch

# Semifreddo SW-61

With Canyon SW-61, everything is under control. First and foremost, it tells time! Second, sync it with your smartphone to receive calls and push notifications. You can control music playback and release the smartphone camera shutter. You can get in the water – the IP68 standard protects this watch. It happily monitors your heart rate, blood pressure and sleep, counts steps, and reminds you to drink water. There are 25 sports modes to keep track of the calories burnt. Choose from 25 languages and dozens of watch faces – the device is fully customizable. The best thing is: you don't have to charge it every night – the SW-61 model lasts 4 to 6 days in active mode. We bet you wouldn't want to leave home without this smartwatch!

**SMARTWATCH  
BADIAN SW-68**

## Smart Watch

# Badian SW-68

This watch is a rare combo for sporty people! Look, we have 22 sports modes, from runs to walks to baseball and yoga. Statistically speaking, there is a high chance that your favorite activity will be among the included modes.

If you are an avid swimmer, our watch is protected by the IP68 standard. It will monitor your heart rate, your sleep, and remind you to drink water.

To keep you comfy, we used hypoallergenic silicone for the strap. The watch is highly customizable and allows you to receive notifications and control media playback. All that without the nuisance of charging it every night — our SW-68 model lasts up to 6 days in active mode.

**Please note that we care about your privacy — the Canyon smartwatch follows the GDPR standard and protects your personal data.**

**KIDS WATCH «JONDY» KW-44**

## Smart Watch

# "Jondy" KW-44

The Canyon Jondy smartwatch is almost like a small 4G cell phone. It is so lightweight and fits perfectly on your kid's wrist.

Safety was our top priority in the design of this product. These smartwatches feature a front-facing camera for taking selfies. Additionally, with 4G and VoLTE support, they enable two-way phone calls functionality. It can receive text messages and has an anti-spam phone book. We added a GPS module so that you can track the device, thanks to the Canyon Life APP. In the unlikely case of an emergency, there's a designated SOS button.

This device will be handy for its little user and is going to save you a lot of worries. Your child will love seven pre-installed games, an audio player, and a photo album. There are some basic necessities, too – alarm and pedometer.

Now let's see the numbers: the battery is 700mAh, 512Mb of storage is at your disposal, and all this is IP67 waterproof.

Pretty good for your kid's first smartwatch!

Big battery capacity

5291485009335

## KEEP IN TOUCH

This device supports the 4G network and VoLTE. It can call and receive calls, short messages. All that in a compact form factor suitable for a child's wrist!

A woman with dark, wavy hair, wearing a light-colored, vertically striped shirt, is smiling and looking towards a young girl. The girl has her hair in a ponytail, is wearing a white long-sleeved shirt and a purple backpack with orange straps. She is holding a white spiral notebook and a blue pen. They are standing outdoors in front of a blurred cityscape with buildings and streetlights. The lighting is warm, suggesting late afternoon or early morning. On the left side of the image, there are several bright green geometric shapes: a small square at the top, a parallelogram below it, a larger parallelogram further down, and another small square at the bottom left.

## PERFECT SOLUTION FOR CHILD'S SAFETY

Keep the worries away. With the GPS module on board, you can track the device's location via the Canyon Life app. There's an SOS button to call for help.

**YOUR KID WILL LOVE IT!**

We added seven pre-installed games, an audio player for music and audiobooks, and a photo album to store photos from the camera.

## **BRIGHT AND COLORFUL CHILD-FRIENDLY**

Child-friendly design is bright and welcoming. The device covers most of the little users' needs without being cramped.

Basic necessities are at your disposal:  
alarm, voice chat, pedometer and stopwatch.

# Kids Watch «Cindy» KW-41

# Kids Watch

## «Cindy» KW-41

Do you want to get your kid a handy gadget?

The KW-41 smartwatch is an all-around device designed to meet children's needs.

It does not require a smartphone connection — a good choice if you want a distraction-free, standalone device. 4G connection allows 2-way phone calls and messaging, and you'll always be in touch.

This watch is waterproof, has a great battery life, and a dedicated SOS button — your kid's safety is our priority. Even more, there's 512MB of internal memory to use up for important stuff. We included 7 educational games, too, so this watch would be fun to wear!

**SMART BAND FOR SENIORS  
WITH SOS FUNCTION  
ST-02**

# Smart Band ST-02

Put your worries away with Canyon ST-02 Senior Tracker. This smart device can be a big helper for older people – and keep you assured that your family members are safe. It is connected via 4G and Wi-Fi and features a one-key quick call. Location-based service allows for precise positioning; the GPS+Glonass module is also on board. You can track and tweak the device via a mobile app – the access is easy and reliable.

It is packed with sensors that can monitor the heart rate, body temperature, and orientation. The tracker will count steps and remind its owner to take medicine or exercise. It will also send an alert in case of a fall.

It is a reliable gadget with IP67 waterproof capabilities, a low battery alarm, voice timekeeping, and a special ringtone in case the wearer is lost.

**ST-02 is an excellent choice for caring about your elders!**
