CANYON NUMBERS

- /// Born in the Netherlands in 2003
- /// Over 1000 products created
- /// Sold in over 26 countries on 3 continents

**WE MOTIVATE
YOUNG AND SMART
GENERATION**

YOU CAN

YOU CAN

be yourself without aiming to impress others!

YOU CAN

join the tribe of mindful consumers!

YOU CAN

throw away imposed body standards - your body is your business!

YOU CAN

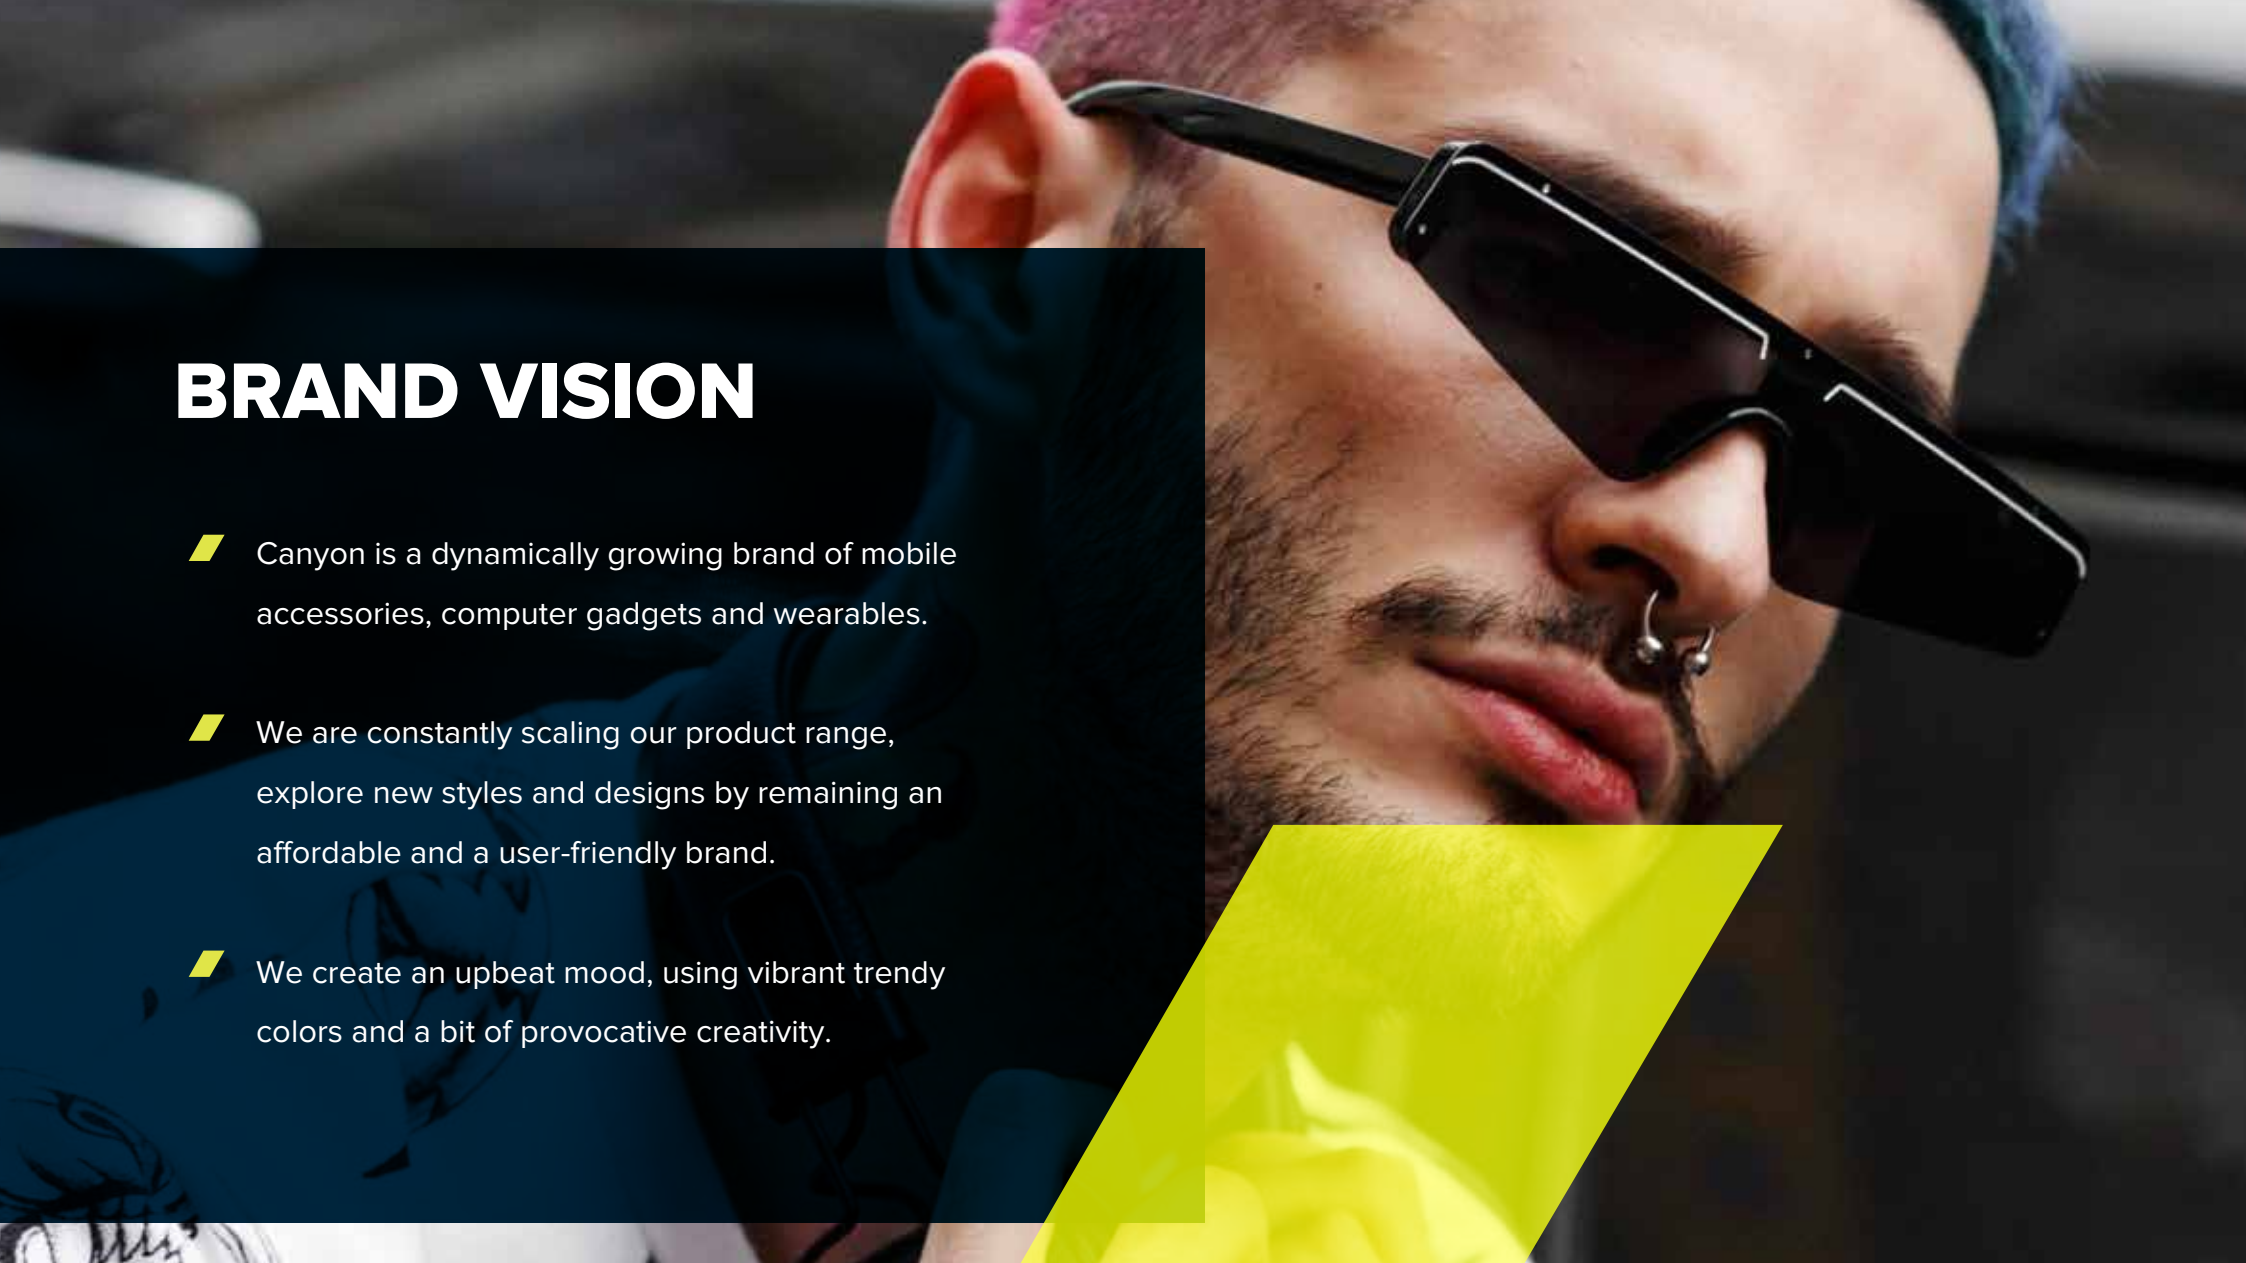

care about the environment and live an eco-friendly life!

Brand Positioning

BRAND VISION

- ▀ Canyon is a dynamically growing brand of mobile accessories, computer gadgets and wearables.
- ▀ We are constantly scaling our product range, explore new styles and designs by remaining an affordable and a user-friendly brand.
- ▀ We create an upbeat mood, using vibrant trendy colors and a bit of provocative creativity.

USER PERSONA

- /// Young Generation (15-25 years old)
- /// Truly digital
- /// Has own values, beliefs and ideology
- /// Aims to self-development
- /// Needs to be amazed
- /// Strives for everything new and unique
- /// Loves smart consumption
- /// Hates mindless plastic lifestyle

YOU ARE COOLER THAN BRANDS YOU USE!

YOU make a brand better, not vice versa. You change this world for the better - your creativity, your stories, your eco-position, tolerance, humanity, your desire to help and share, your smart consumption are your contribution to this world.

Enjoy mindful lifestyle, spend your time and energy to help the Earth, people and living beings surrounding you.

Be a leader without fancy brands and imposed standards You are free to be whatever you like, regardless of your body shape, skin color or sexuality.

Be creative, tell your stories, live your own life. Be yourself!

EMOTIONAL

Get social

Don't run for likes, express yourself as you are.

Live Eco lifestyle

Protect the environment, care about the Earth, love nature.

Take it easy

Don't care about imposed body standards, your body and your sex are your own business.

Take care of yourself

Live healthy and happy life, meditate, catch the right moment!

FUNCTIONAL

Always fresh and trendy

Attractive gadgets that create a great mood for every day.

Simple but catchy

Portable, easy-to-use, full of juicy colours and soft-touch textures.

Qualitative

Being an inexpensive brand, Canyon values high quality and follows the most strict harmonized standards by the EU.

Data protection

All Canyon smart gadgets are built to protect user privacy and use encrypted data technology.

NOVELTY!

Are you a serious gamer looking for the ultimate audio experience? Look no further than this gaming headset from Canyon — DoubleBee GTWS-2. These true wireless earphones are designed specifically for gaming, providing an immersive audio experience. With a low latency of just 45ms in gaming mode, you'll never miss a beat or experience any lag. There's also a dedicated Music mode, which ensures the best possible audio quality. The earphones use Bluetooth 5.3 for a stable and energy-efficient connection to your gaming device, allowing you to move around without worrying about losing your connection. With an impressive battery life of up to 4 hours on a single charge and up to 37.5 hours with the charging case, you'll never have to worry about running out of juice mid-game. Besides, the earbuds have a quick charge mode: from zero to full battery in just 60 minutes. It's worth noting that the charging case has a unique design that resembles the iconic Bumblebee. Available in black, orange, and yellow, this case definitely looks fresh in the world of gray and white earbuds. Get a next-level experience with DoubleBee – the new true wireless headset from Canyon Gaming!

Have you already tried true wireless earphones? There is a chance you won't look back with these Canyon earbuds 13 mm speakers will bring joy to your ears, offering a balanced sound profile. Not only music – these earphones make a great companion for calls and conferences. Four microphones work together to provide environment noise cancellation. Whether you are on a call or just in a noisy environment – this technology helps you to hear and be heard. These earphones boast an impressive battery life, offering up to 7.5 hours of playback on a single charge. When combined with the charging case, you can enjoy up to 32 hours of use. The case can be fully charged in just two hours using any Type-C cable. We use the latest Bluetooth protocol, which is dependable and energy-efficient. It will maintain a stable connection with your phone or other devices. Plus, the low latency of 50 ms makes these earphones quite good for gaming. Lightweight and ergonomic, they are almost imperceptible to the ear. We added earcaps in three sizes to make the fit ideal for you.

It's easy to get lost in the market of true wireless earphones, but don't worry – there's a good option just for you. TWS-6 is the right choice for anyone looking for a great audio experience while on the go. They are lightweight with a comfy, secure fit. Silicone case included into the box will protect your device from scratches, bumps and drops. The battery life is impressive, with up to 4.5 hours of playback on a single charge. With the charging case, you can get up to 22 hours. If that isn't enough, charge it in just two hours with any Type-C cable. The controls are intuitive and easy to use. The Bluetooth 5.3 connectivity is reliable and energy-effective, allowing you to keep a stable connection to your phone or other devices. Also, a low latency of 50ms makes these earphones suitable for gaming. It would be an excellent choice for those who want a great audio experience!

CNS-TWS5GR	olive	5291485009144

These wireless headphones are designed for those who are constantly on the move and love to listen to music in high quality playback. The latest version of Bluetooth 5.3 ensures stable pairing both with the audio source and between the right and left earbuds. In addition, thanks to this protocol, the operating time of the headset has been increased up to 7.5 hours. Clear and surround stereo sound will allow you to enjoy your favorite music in high quality. The TWS function allows you to pair it with a second BT TWS speaker for immersive stereo sound experience. The headset allows you to receive phone calls and use voice assistant without touching your smartphone. To charge the headphone box, a USB Type-C cable is used, the same one used in most modern smartphones. The comfortable design of the earbuds with silicone ear tips ensures a snug fit in the ear. Additional ear cushions in different sizes allow you to choose the right ones for you, ensuring the most comfortable fit. Reliable audio gadget for those who love an active lifestyle!

NOVELTY!

When smaller TWS earbuds just don't deliver the sound you want, the Canyon OnRiff 10 headphones might be the solution. Big, comfy earcups serve as a casing for speakers that provide a high-fidelity experience. Active noise cancellation uses built-in microphones to filter out unwanted noises so the sound is crystal clear at all times.

Be sure to use them for calls – environmental noise cancellation guarantees your voice is heard without any distractions.

The OnRiff 10 headphones offer dual device connection: connect it to your phone and PC simultaneously and switch seamlessly between sources. Plus, they are entirely suitable for gaming because we added a low-latency gaming mode.

Thanks to the energy-efficient Bluetooth 5.3, they offer up to 25 hours of playtime on one charge. There's also an option to connect them via a 3.5mm jack. You have four colors to choose from: black, beige, purple and green. Attract some views and enjoy the tunes with OnRiff 10 – get them now.

CNS-CBTHS3BE	ivory	5291485009717

These Canyon wireless over-ear headphones may be your to-go choice for everyday life. They are packed with Bluetooth 5.1 and audio jack 3,5 mm, so you don't have to worry about compatibility. The inline mic is highly sensitive and provides excellent clarity. The headphones are foldable – shouldn't take up much space if you need to carry them around. We also made a headband that will last: it is adjustable and reinforced by metal parts. Soft, comfortable cushions cover 40mm speakers, and the exterior is streamlined and feels like quality. Enjoy up to 15 hours of playtime with Canyon BTHS-3!

NOVELTY!

Can you imagine a good party without music? We can't. The Canyon OnFun 5 will save your event from being a snoozefest. With 40W of power and full-color party lights, this speaker will be a hit of the function.

You can play tunes via Bluetooth 5.0, AUX, USB, or MicroSD card reader. Even more features await: there's a 6.3mm jack for mic or guitar input. Play live music or enjoy karaoke with friends; this speaker is meant to bring fun.

You'll get a six-mode equalizer to precisely adjust the sound – and make it pop, whatever the genre is.

To make the gig louder, connect two speakers at once using the true wireless mode. They'll synchronize perfectly to immerse you in music.

You'll get up to 4 hours of playtime with the Bluetooth connection. Whether it's a party or any other event, OnFun 5 is sure to liven things up!

NOVELTY!

Music makes everything better – even more so if you can have a good speaker wherever you go. We just might have a good example: the Canyon OnMove 15 Portable Speaker. With 40W of power and full-color ambient light, your life will definitely get brighter – and louder! The three-mode equalizer brings clear sound and powerful bass. This speaker has Bluetooth 5.0, AUX input, and can read music from an SD card. It is also IPX6 waterproof, so no rain or splashes will get in the way of your tunes. There's also a built-in mic, so technically, nothing stops you from using it as a loudspeaker for phone conversations. True wireless mode allows you to connect and sync two speakers at once and use them as a full-scale sound system. With a BT connection and 80% volume, you'll get around 6 hours of playback, and it charges back to full battery in just 4 hours. Finally, we have two color options: really dark gray and really cool beige. Choose one or pick both and brighten up your event – whatever it might be!

CNE-CBTSP8G	graphite	5291485010034
CNE-CBTSP8R	burgundy	5291485010041

The new Canyon portable wireless speaker is ready to blast your all-time favorites. Rated at 10 Watts, it is a travel-sized powerhouse. Rounded shapes, compact size, and a neat little handle make it a perfect companion for a trip or a countryside party with your friends! The RGB backlight on top will look awesome after dark, and you can easily find the playback control buttons there. Enjoy up to 3 hours of music while being connected with Bluetooth, and once the battery dies - just plug it in with about any Type-C cable. Besides, you can use AUX, USB, or a MicroSD memory card as your media source.

We truly recommend using Bluetooth – what's better than switching playlists on the fly? As far as 10 meters from the speaker, the connection remains stable. Get your BSP-8 speaker in red, gray, or black – your adventures need to get a soundtrack.

NOVELTY!

Introducing the Canyon PB-2010 power bank - a reliable solution for all your charging needs, whether you're traveling, working remotely, or enjoying outdoor activities. What sets this power bank apart is its airline-friendly design. It has a capacity of 97.2 Wh, which is right below the 100 Wh limit to be safely carried in checked baggage during air travel. Equipped with high-speed USB-C Power Delivery 3.1 ports, this device is capable of efficiently charging laptops and other devices at the rate of up to 140W. These ports are two-way: they can be used both as input and output. Along with a USB-A QC 3.0 output port, you can charge three devices simultaneously at lightning speed. The built-in status display keeps you informed of the charging modes and remaining power. Upgrade to Canyon PB-2010 today and experience the convenience of staying charged anywhere and anytime.

CNE-CPB301B	black	5291485009571
CNE-CPB301W	white	5291485009892

That's a real powerhouse among power banks! The PB-301 stores a whopping 30000 mAh of electric juice for your devices.

It has dual input ports: Type-C and MicroUSB, the latter one for the times when you need to keep it old-school. The USB-C port is both input and output, and it's Power Delivery – meaning you can charge your power bank faster, too. Two USB-A ports support Quick Charge 3.0, making three output ports charge all your gadgets three times quicker. The built-in status display will tell you if fast charge mode is active and help you monitor the percentage of power left.

We used the Smart IC technology in this power bank. This thing can detect your device and cable capacity and optimize voltage. It also protects your gadget from short-circuiting, overheating, and other threats. If you like to spend a lot of time off the grid, that's your power bank of choice!

This is a powerful energy storage just for you. No jive, just 20000mAh of power for your devices in a very convenient form factor.

The Type-C port is input and output, and it's Power Delivery. You'll charge your devices three times faster and recharge the power bank just as quickly. Nice thing to have when you're always on the move!

Two USB-A ports support Quick Charge 3.0 – you can charge multiple devices at once. The built-in status display will tell you if fast charge mode is active and help you monitor the percentage of power left.

We also used a Smart IC here. It can detect your device and cable capacity and optimize voltage. It also protects your gadget from short-circuiting, overheating, and other threats.

With the Type-C cable included, it's going to be your dependable helper!

CNE-CPB1009B	black	5291485009380
CNE-CPB1009W	white	5291485009397

We have a perfect power bank for our dearest Apple users. Straight to business: it has a dual Lightning and Type-C power input. With Type-C and USB-A output ports, you don't have to worry about another cable or adapter – you can charge your phone & recharge the power bank just with a Lightning cable. Simple as that. Hold on – this gets better: the Type-C output is capable of 20W Power Delivery. This power bank also supports QC 3.0, and it shouldn't be a surprise: we used Smart IC here. It can detect your device and cable capacity and optimize voltage. It also protects your gadget from short-circuiting, overheating, and other threats. This power bank is 10000mAh, more than enough to charge a phone about three times, but still compact and lightweight. Ideal for everyday carry!

MODEL

CNS-CPB1001B	black	5291485008406
CNS-CPB1001W	white	5291485008413

This power bank can charge gadgets both via cable and wireless magnetic technology. The built-in wireless charging module is compatible with iPhone 12/13. Share battery power with friends, even if your gadgets have different connectors. In addition, you can charge the battery itself by connecting it to a power outlet via a USB-C or Lightning cable. The device supports Quick charge 3.0 and PD 18W charging protocols. The charging power is detected automatically, which helps avoid overheating the gadget and increases battery life. Battery capacity 10,000 mAh. The battery is equipped with an LED indicator to check the charge level easily. Less hassle and more functionality!

Every gadget user has faced this problem when a smartphone or headphones battery runs out amidst the most interesting place of a series, a game, or a heated chat discussion! Canyon released the PB-2001 power bank model to help you use a mobile device all day long without worrying about a dead battery. It is notable for its high capacity and fairly compact housing with 2 charging inputs - Micro-USB and Type-C. The battery can charge 2 devices simultaneously via USB-A outputs. In addition, the power bank has six types of protection and is dressed in stylish dark graphite or white case. PB-2001 takes up the least possible amount of space in your bag while performing at maximum!

MODEL

CNS-USBC44B	black	5291485009441
CNS-USBC44W	white	5291485009458

The model provides a 40 Gbps high speed of data/video/audio transferring and fast charging for MacBook or any other laptop. Maximum capacity of 5A allows to charge your devices really fast. But the main characteristic is that it supports single 8K, 60Hz; 4K, 120Hz or dual 4K, 60Hz resolution. Also the cable is equipped with an E-MARK chip, which enhances the transmission power up to 240 W and provides sufficient bandwidth for fast and complete transmission for video files. Also, the E-MARK chip regulates the power supply, which guarantees that using the cable is safe and efficient. The USB-C to USB-C cable has an optimal length (1 meter). And it is available in black and white colors. An excellent combination of price and quality.

MODEL

CNS-USBC12B	black	5291485008710
CNS-USBC12W	white	5291485008727

This cable model will allow you to reduce the duration of charging and data transfer to the minimum possible today. The cable is equipped with an E-mark chip, which delivers additional protection for the charged device, especially in cases when the output current of the power adapter exceeds the requirements. The PD protocol allows charging smartphones, tablets, and laptops. It ensures continuous data transfer, even if the connected devices change roles from receiving a charge to data transmission and vice versa. The length of 2 meters makes it especially convenient when charging from the mains. The cable is encased in a strong PVC covering.

Smart design and trendy Orange and Black/White color combinations will fit perfectly into the interior of your car.

Smart IC Technology

Built-in smart chip detects the type of device to be charged and delivers an optimal electric current. Fastest charge and economy guaranteed!

black

A close-up photograph of a smartphone mounted in a car's dashboard holder. The phone's screen shows a battery icon and the text '100% Charged'. The background is a blurred view of the car's interior. A large yellow rectangular overlay covers the left side of the image, featuring a stylized blue and cyan geometric logo at the top left.
