Configuring JoinU Room Controller Tablet app

You can configure an Android tablet (iPad support coming soon) to be used as a touch-based room controller along with JoinU (server part). Currently JoinU Room Controller supports controlling Zoom, Microsoft Teams and Google Meet. For other conferencing applications you can use the **Remote** option to control the conferencing calls after launching.

Currently room controller application is supported only on Android tablets with version Android 10+. Please note that support for using an iPad as a room controller will be added in the future.

To use an Android tablet as a touch controller with JoinU (server part), you need to follow these steps:

- 1. Start by enabling the **Automate Meeting action** on your JoinU (server part). You can do this either from JoinU (server part) settings or admin dashboard.
 - Go to JoinU Settings->apps and Turn ON the **Automate Meeting action** and click on save.

2. Install the JoinU room controller APK file on your Android tablet. Make sure your tablet is running Android 10 or a newer version. If you don't have the APK file, you can download it from https://joinu.app/ or request it by sending an email to support@joinu.app.

3. On the tablet's app screen, enter the JoinU pin to establish the connection between the two devices. (The PIN code is displayed in the center at the bottom of the main device with JoinU. 4 digits.)

4. Once the tablet is successfully paired with the JoinU (server part), you will see a screen displayed on the tablet indicating the connection.

5. Next, you need to authorize the JoinU room controller. Access the JoinU admin dashboard and click on the gear icon next to corresponding JoinU device. Navigate to the Room Controllers section and find the name of the room controller displayed on your tablet and Authorize the room controller. Save button.

6. To ensure the authorization is applied, refresh the room controller by clicking on the refresh button within the app on your tablet.

7. After the pairing and authorization process is complete, you will be able to view the meeting list on the tablet's app under the meetings tab.
