

210% UniFi revenue growth in the last three years

10+ million devices shipped

Independent tests (Alethea) ranked UniFi AC HD #1

- Connecting everyone, everywhere
- Combine innovative technology, support of global
   User community and disruptive price-to-performance
   to eliminate barriers to connectivity
- 90+ million devices deployed in over 200 countries

# The recent rapid growth in UniFi Enterprise Networking products has been impressive

))

...another quarter of strong growth in 1Q18... accounted for 6.6% of the enterprise market in 1Q18

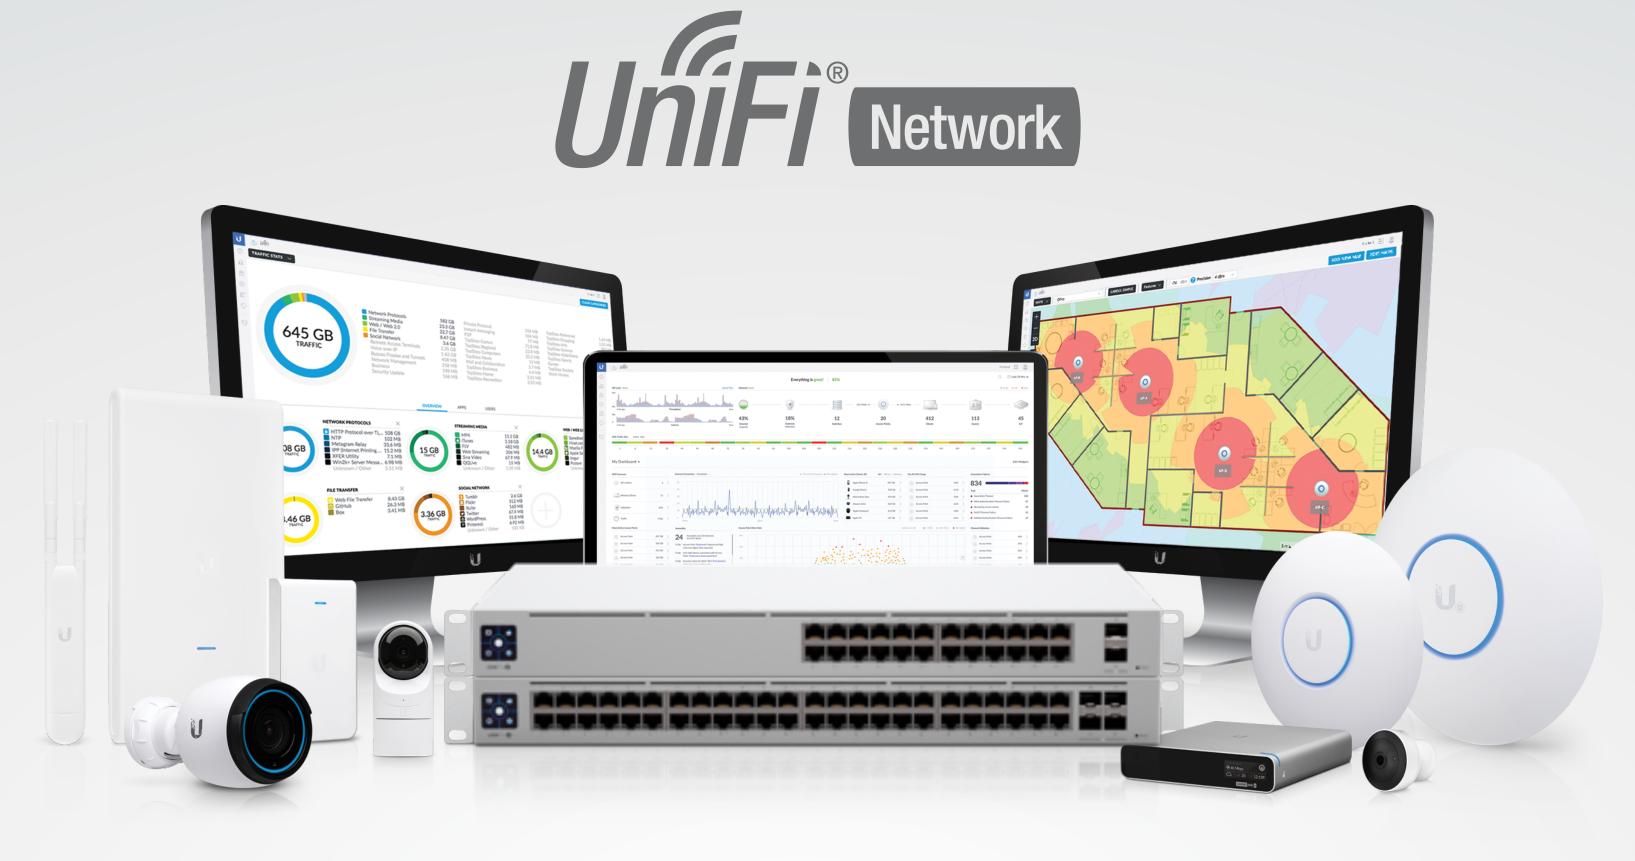

Ubiquiti is the 4th largest Enterprise Wi-Fi vendor

# statista 🗹

))

UniFi is a revolutionary Wi-Fi system that combines Enterprise performance, unlimited scalability, a central management controller and disruptive pricing.

Simultaneous Dual-Band Wi-Fi | Scalability for Thousands | Amazing Long-Range Links

Manage your Networks from a Single Control Pane | Intuitive and Robust Configuration, Control and Monitoring Remote Firmware Upgrade | Users and Guests | Guest Portal/Hotspot Support

48 Port – PoE+ Support (40), PoE++ Support (8), and SFP+ Support (4)

Optical Fibre Connectivity | 8 Port Switch & Security Gateway | Powerful Firewall Performance | Convenient VLAN Support
