## Adding Scheduler to Dashboard

In this article, we will show you how to add JoinU Scheduler to JoinU dashboard. Adding a Scheduler to the dashboard allows you to monitor, configure, integrate and manage your JoinU schedulers easily from the centralized dashboard. Here is the step-by-step process to do it.

1) Go to <u>https://start.joinu.app/dashboard</u> and login by entering the details. If you have not created an account, sign up and create your dashboard account.

<ul> <li>U JoinU Dashboard</li> <li>× +</li> </ul>		- D X
$\leftrightarrow$ $\rightarrow$ C $rac{1}{2}$ start.joinu.app/dashboard/login		☆ 🚓 Incognito Finish update 🔅

## Microsoft O365 Calendar- Integration and Mapping to JoinU Scheduler

Integration and mapping of room calendar resources to your JoinU Scheduler is a mandatory step to enable its full functionality. Once successfully integrated, the Scheduler will provide the following features:

- Display upcoming meetings and the complete room calendar.
- Show room status (Available/Busy) in real-time.
- Enable on-the-spot quick room booking.
- Support auto-cancellation of unused bookings and early check-out options.
- And many other productivity-enhancing features on the JoinU Scheduler.

This article provides a step-by-step guide to integrating and mapping JoinU Scheduler with O365 Calendar room resources. Integration and mapping are two distinct steps in the process:

- Integration: This step authorizes JoinU to access and list all available room resources with the necessary permissions for mapping. Ensure that the account used for integration has delegate permissions for the required room resources. Integration is a one-time activity.
- Mapping: Mapping involves assigning each JoinU Scheduler to its corresponding room resource. A single integration can be used to map multiple room resources to different JoinU Schedulers.
- 1) Login to your JoinU dashboard and go to the navigation bar on the left and click on "Integrations".
